

EXHIBIT A

[FCC Ref. 2.1033(b)(3)]

"Installation and Operating Instructions
Furnished to the User"

FCC REGISTRATION INFORMATION
The Federal Communications Commission (FCC) requires that all mobile phones be registered with the FCC. This is done by entering a unique number (the EIR) for the equipment, the telephone company name, and the user's name. The FCC is a federal agency that regulates interstate and foreign commerce in communications by radio, wire, and optical means. The FCC is also responsible for enforcing the Federal Communications Act of 1934 and the Federal Communications Act of 1947. The FCC is a part of the Department of Commerce. The FCC is a federal agency that regulates interstate and foreign commerce in communications by radio, wire, and optical means. The FCC is also responsible for enforcing the Federal Communications Act of 1934 and the Federal Communications Act of 1947. The FCC is a part of the Department of Commerce.

WARNING: TO PREVENT FIRE OR ELECTRICAL SHOCK, DO NOT EXPOSE TO WATER OR MOISTURE.

BEFORE YOU BEGIN
PARTS CHECKLIST
Make sure your package includes the items shown here.

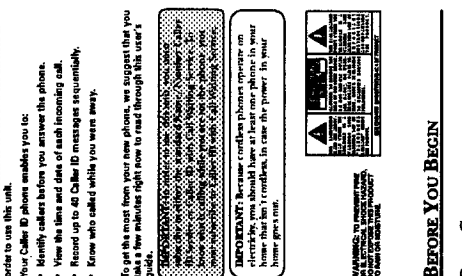

MODULAR JACK REQUIREMENTS
You need an RJ11 type modular jack, which is the most common type of phone jack and might look like the one shown here. If you don't have one, you can purchase one from a telephone company to find out how to get one installed.

INSTALLATION NOTE: Some cordless telephones operate at frequencies that may cause interference in nearby TV and VCRs. To minimize or prevent such interference, the base of the cordless telephone VCR, if you have one, must be placed at least 10 feet from the telephone. If you have a VCR, place it at least 10 feet from the telephone. If you have a VCR, place it at least 10 feet from the telephone. If you have a VCR, place it at least 10 feet from the telephone.

WARRANTY
This product is warranted by the manufacturer for a period of one year from the date of purchase. The warranty is void if the product is damaged by misuse, accident, or fire. The warranty is also void if the product is used for any purpose other than that intended by the manufacturer. The warranty is also void if the product is used for any purpose other than that intended by the manufacturer.

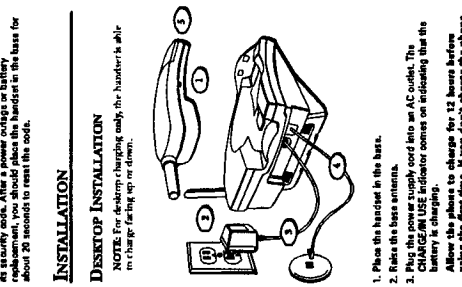

INTRODUCTION
Your Cordless ID phone system and display provide information, provided by your local telephone company, to subscribers of Cellular ID or other call identification services. This information is used to identify calls from numbers you do not want to receive. This information is used to identify calls from numbers you do not want to receive.

INSTALLATION
DESKTOP INSTALLATION
NOTE: For desktop charging only, the handset is able to charge facing up or down.

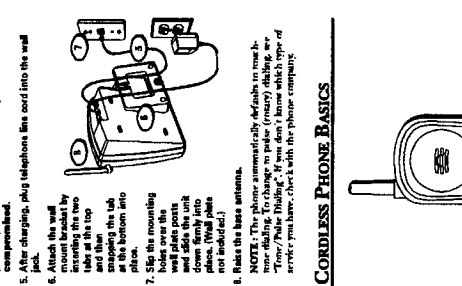

DIGITAL SECURITY SYSTEM
Your cordless phone uses a digital security system to protect your calls from unauthorized use. This system is called a Digital Security System (DSS). The DSS is a digital security system that protects your calls from unauthorized use. The DSS is a digital security system that protects your calls from unauthorized use.
