Attention: Mr. Sid Sanders

Subject: ECC Part 15 Class "II" Permissive Change Filing for
ATLINKS USA, Inc. - Model 27995XXX-A (Base Unit)
Marstech Report No. 24289D

Reference: FCC ID: G9H2-7923A

Gentlemen:

We are herewith submitting a Part 15 Class "II" Permissive Change Filing for ATLINKS USA, Inc. to cover additional Model 27995XXX-A (**base unit**) [where "XXX" is any letter or number which represents trade name, colour and packaging for marketing purposes].

The RF module of Model 27995XXX-A (base unit), a 900MHz single-line cordless telephone base with answering machine, is the same as previously registered Model 27923XXX-A.

The base main unit of Model 27995XXX-A is similar to previously registered Model 27933XXX-A except for model designation, addition of answering machine and component/circuit/pcb layout changes.

In view of the above, all applicable tests in compliance with FCC Part 15 Rules have been completed on Model 27995XXX-A with satisfactory results as shown in Exhibit A. The Model 27995XXX-A (base unit) will also bear the same FCC ID: G9H2-7923A as the Model 27923XXX-A and 27933XXX-A

Please also note that the Model 27995XXX-A meets the new rules (150KHz to 30MHz) FCC Power Line Conducted Limits.

Please review this project at your earliest convenience and please do not hesitate to call us should any problem arise.

Yours very truly,

MARSTECH LIMITED
