TELEPHONE NETWORK INFORMATION

Should your equipment be used in a telephone network, the telephone company, or the telephone company's representative, may require you to follow certain procedures. These procedures may vary from one telephone company to another. It is recommended that you contact your telephone company for more information. The telephone company may require changes in its procedures when you use the telephone company's equipment. If these changes are required, you must follow the telephone company's procedures. The telephone company will not be responsible for any damage to your equipment or for any loss of service if you do not follow the telephone company's procedures. The telephone company will not be responsible for any damage to your equipment or for any loss of service if you do not follow the telephone company's procedures.

REN NUMBER

On the bottom of this equipment is a label indicating the REN (Registered Equipment Number) for the telephone. The REN is a number that indicates the amount of power the telephone requires to operate. The REN is used by the telephone company to determine the number of telephones that can be connected to a single line. The REN is also used by the telephone company to determine the number of telephones that can be connected to a single line. The REN is also used by the telephone company to determine the number of telephones that can be connected to a single line.

SERVICE

ATLANTIC COMMUNICATIONS CANADA, INC. warrants to the purchaser or user of this equipment that the equipment will be free from defects in materials and workmanship for a period of one year from the date of purchase. This warranty does not include damage to the product resulting from accidents, misuse, or lack of proper maintenance. This warranty does not include damage to the product resulting from accidents, misuse, or lack of proper maintenance. This warranty does not include damage to the product resulting from accidents, misuse, or lack of proper maintenance.

1. Return it to the selling dealer with proof of purchase for replacement.

2. Return the equipment to the manufacturer for replacement.

3. Return the equipment to the manufacturer for replacement.

4. Return the equipment to the manufacturer for replacement.

5. Return the equipment to the manufacturer for replacement.

The provisions of this warranty are in addition to and not a replacement of or substitution for the warranty and other rights of the purchaser or user. The purchaser or user must retain the original receipt for the equipment. The purchaser or user must retain the original receipt for the equipment. The purchaser or user must retain the original receipt for the equipment.
