

The following RF Exposure compliance statement will be include in the Users Manual

RF EXPOSURE

WARNING: To satisfy FCC RF exposure requirements for base station transmitting devices, a separation distance should be maintained between the antenna of this device and persons during device operation as shown in the table below. To ensure compliance, operations at closer than this distance is not recommended.

Antenna Type	Antenna Gain	Minimum Separation	Location
1/2 Wave	2 dBi	20 Cm	On the unit
CONIFER	24 dBi	15' high and 10' away	On roof top
MOBILEMARK	12 dBi	15' high and 10' away	On roof top
