

EXHIBIT 5

5.0 *Product Labeling*

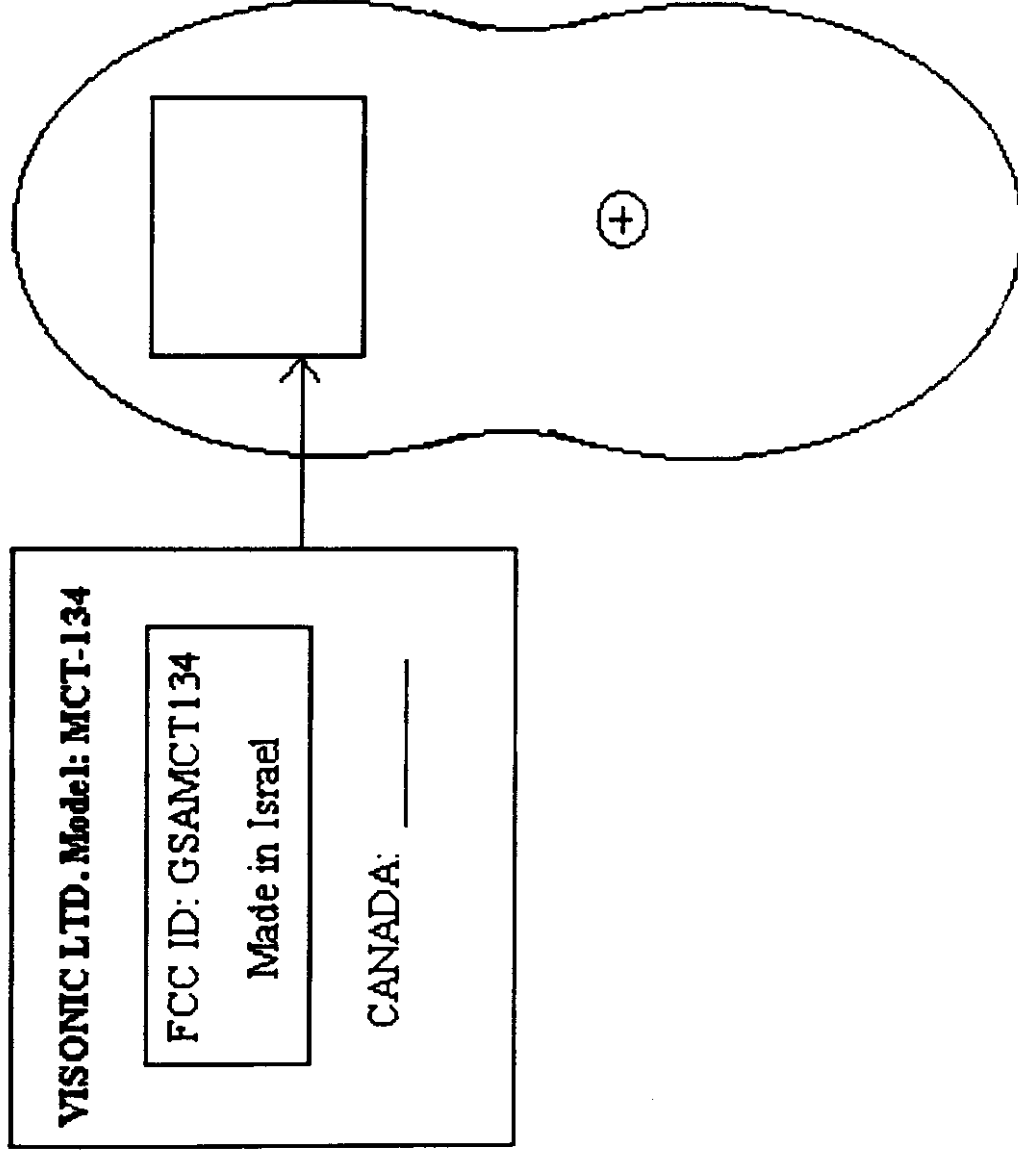

5.1 Label Artwork

The label shown in the attached drawing will be permanently affixed to the system at the location shown in Exhibit 5.2. Because of the small size of the device, only the model number the FCC ID, and the Canada ID will be reproduced on the device itself, with the remained of the label reproduced in the manual. The label shown is for the Model MCT-134. The MCT-131 and MCT-132 labels will be exact duplicates except the model number will change to reflect the appropriate device.

5.2 Label Location

The label location is shown in the following diagram.
