Charging the Speaker

Attach the small connector of the supplied micro-USB cable to the micro-USB charging port on the back of the speaker. Attach the large connector to a USB port on a computer, USB charging device, or **SV USB adapter** (not included) and plug into a wall socket.

The LED indicator will turn **RED** while charging and turn off when charged.

NOTE: A tone will be heard when the speaker is low on battery.

Using the Speaker

Make sure you charge your speaker for at least 3 ~ 5 hours before using them for the first time.

Powering ON/OFF

- Long press the [Power] button to turn the speaker ON. A tone will be heard indicating the speaker has power.
- Long press the [Power] button to turn the speaker OFF.

Using the Lights

- Press the [Power] button on the back panel of the speaker to cycle through the 4 light modes.

Playing Music

To enjoy music wirelessly on your speaker, make sure you are paired to a Bluetooth-enabled device. Once paired, you can control the media playback and volume adjustment with the controls on your paired device.

The screenshots above are typical of many Bluetooth-enabled devices in the market today, and are used to assist in the explanation of the pairing process. Your Bluetooth-enabled device's interface and interaction with the speaker may differ slightly from the illustrations above.

Using with a Wired Device

Attach one connector of the supplied 3.5mm auxiliary cable to the auxiliary input jack on the back of the speaker. Attach the other connector to the headphone jack on your media-playing device.

Connecting the audio cable will override Bluetooth mode. If it is enabled. When the cable is disconnected, the speaker will automatically reconnect to the last paired device if Bluetooth mode is enabled.

READ CAREFULLY AND KEEP THIS MANUAL

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
