Re: K33364US FCC ID:GV333364

Dear Sir:

Regarding Part 15 Subpart C: § 15.19 Labeling requirements. We understand that the following statement should appear in a conspicuous location on the device:

This device complies with Part 15 of the FCC Rules.
Operation is subject to the following two conditions: (1)
This device may not cause harmful interference, and (2)
this device must accept any interference received,
including interference that may cause undesired
operation.

However due to the size of our consumer electronics device we have found that adding this text in the space available on the product would result in it being illegible to the user and we have therefore exercised the option to place this text in the user manual.

Best regards,

Matthew Hoag
