

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a piece of electronic equipment (likely a spectrum analyzer or power supply) sits on a light-colored wooden table. A red cable is connected to it. In the center, a power supply unit is on the floor, with a red emergency stop button. To the right, another wooden table holds various electronic components and test equipment. The background is a plain wall with a power outlet.
Radiation Emission View (Below 30MHz)	 A photograph of a radiation emission test setup. The room is lined with white, square-shaped electromagnetic interference (EMI) shields. In the center, a white table holds a piece of equipment. In the foreground, a black metal frame stands on a wooden pallet. The floor is polished and reflects light. Yellow and black striped caution tape is on the floor.
