EXHIBIT F

The image shows the rear side of a device, likely a mobile phone or a small electronic unit. The main body is a dark, rectangular metal chassis. On the left side, there is a vertical strip of components, including a series of small, circular components (possibly capacitors or resistors) and a larger, rectangular component. A small, cylindrical component is visible near the top left. On the right side, there is a large, rectangular antenna structure. The bottom of the chassis features a series of small, circular components and a larger, rectangular component. The overall appearance is that of a compact, industrial-grade electronic device.
