

Askey Computer Corporation
10F, No. 119, Jiankang Rd., Zhonghe Dist.,
New Taipei City, Taiwan

Federal Communications Commission

Subject: Geolocation General Description

To whom it may concern,

Askey Computer Corp. ("the applicant") certifies that outdoor Cable modem system is using an internal geolocation capability, u-blox/ UBX-M10050-KB, to automatically determine the standard power access point's geographic coordinates and location uncertainty with a confidence level of 95%. Daily AFC confirmation will be performed, and re-authenticate after a power cycle operation.

u-blox/ UBX-M10050-KB module is programmed to have only GPS and Galileo constellations enabled by default.

A handwritten signature in black ink, appearing to read "Jack Po", positioned above a horizontal dashed line.
