RE: Authorization for ZEBRA Corporation to apply for Regulatory Approvals for products that include the Symbol Technologies Inc. radio card Model number LA-3021-100.

Dear Mr. Heon,

This letter grants authorization for ZEBRA to apply for Regulatory Approvals for ZEBRA products that include the Symbol Technologies Inc. radio card:
Model number LA-3021-100

This letter grants authorization for ZEBRA to apply to the Federal Communications Commission, Industry Canada, and other International Regulatory Agencies for a Grant under ZEBRA's Grantee Code or the equivalent, for ZEBRA products that include the Symbol Technologies Inc. radio card:
Model number LA-3021-100

This letter grants authorization for ZEBRA to apply to the Federal Communications Commission for a Class II Permissive Change for Zebra products that include the Symbol Technologies Inc. radio card:
Model number LA-3021-100, FCC ID H9PLA3021-100

No other changes or modifications are authorized; all of Symbol Technologies Inc. Regulatory Approvals for the radio card Model number LA-3021-100 are to remain in effect and on file.

This letter of authorization to remain in effect until notified or 3 years, which ever comes first.

Respectfully

A handwritten signature in dark ink, appearing to read "Marks S. Luksich", written in a cursive style.

LETTER OF AGENCY

352

To Whom It May Concern:

I hereby authorize, until further notice, PCTest Engineering Laboratories, Inc., of 6660-B Dobbin Road, Columbia, MD 21045, to act on our behalf in dealings before Industry Canada with respect to all matters relating to equipment authorizations for the Zebra Encore 3N portable printer with Symbol LA-3021-100M-US 802.11 frequency hopping spread spectrum transmitters under Industry Canada Standard RSS-210.

PCTest Engineering Laboratories, Inc. will assign a file number to the Application for Certification and remit the fees for application review. This appointment is in force until notification to the contrary.

Equipment: Encore 3N printer with Symbol Technologies LA-3021-100M-US PCMCIA
2.4 GHz 802.11 frequency hopping spread spectrum radio transceiver.
The IC number will be: 1549 102 1685A.

Dated this 23rd day of May, 2002.

Dear Sir/Madam,

In reference to the application for a Class II Permissive Change under FCC ID: H9PLA3021-100, measurement of the antenna gain was performed here at Zebra Technologies as described below. This antenna is Zebra part number CQ15469-2 and the results are as follows:

- 1) Maximum gain = 4.9 dBi
- 2) Minimum gain = -19.0 dBi
- 3) Average gain = -4.32 dBi

The gain of the CQ15469-2 antenna was measured by comparing field strength readings against a calibrated source antenna at a 3-meter separation using a mid-band frequency (2440 MHz).

Source antenna: AH Systems Model SAS-200/511
Receiver antenna: AH Systems Model SAS-200/510
Spectrum analyzer: HP Model 8593E

Sincerely,

Robert D. Heon
