Re: Permissive change request for H9PLA4137P and PD9WCF2011BM Wireless LAN cards

Date: January 16, 2002

To The Commission:

This permissive change request is for Symbol Technologies Inc. radio, FCC ID H9PLA4137P issued on 08/31/2001 and subsequent FCC Grant issued to INTEL Corporation under their grantee code FCC ID PD9WCF2011BM issued on 11/28/2001, both FCC grants are for the same radio under separate grantee codes.

The grants were issued with the following clause listed under Grant Notes:

"Operation of this device with respect to 2.1093 should exclude body-worn or similar operating configurations, as described in the filing."

The worst case RF Exposure test results data (1.47 W/kg), taken in direct contact (0 cm), is under the current 1.6 W/kg limit set in 2.1093 for portable.

Copies of the original test data are submitted electronically as attachments.

Symbol Technologies Inc. respectfully requests that both FCC grants to be reissued without the abovementioned clause that limits the use of the devices.

The following files are electronically submitted as attachments.

<u>Exhibit Type</u>	<u>File Name</u>
Cover Letter: -----	H9PLA4137P Cover Letter.pdf
Test Report -----	H9PLA4137P SAR Test Report.pdf
Test Report -----	H9PLA4137P SAR Test Result Plots.pdf
Users Guide -----	H9PLA4137P Users Guide.pdf

Thank you for your attention.
