Pursuant to Sections 0.457 and 0.459 of the Rules, 47 C.F.R. § 0.457 and 0.459, Dali Wireless requests confidential treatment of certain information submitted with this document.

This Restricted Access of Equipment and Documentation Notice is to inform TIMCO Engineering, Inc. that access to equipment and related documentation supplied by Dali Wireless Inc. is to be restricted to only authorized users in order to ensure the security of the equipment and confidentiality of related documentation at all times. Only designated professionals shall be allowed to maintain or service the equipment.

Dali Wireless, Inc. is requesting Internal Photos and User Manual to be given Long-Term Confidentiality for the following reasons:

1. The circuit boards and internal components are not accessible to users. They are housed inside a water tight (IP65) enclosure installed in communication rooms, telecom closets or above ceilings that are not accessible to the public.
2. Internal photos are not available in any product collaterals and they are not accessible to the public. They are kept internally within the Engineering and Operations group, not for external distribution.
3. Servicing of the equipment is only to be carried out by professionally trained field service technicians employed by companies under Non-Disclosure Agreement (NDA) with Dali Wireless, Inc. They are not allowed to disclose any information about the Dali equipment including internal photos to third party under the NDA.
4. The User Manual contains proprietary technical information including installation, commissioning, operations and maintenance procedures intended for professional technicians trained by Dali Wireless, Inc. Distribution under NDA.
5. User Manual is not available to the public. The distribution is through request from Sales department to the Operations department within Dali Wireless. User Manual is only distributed to customers and system integrators under NDA.
