Request for Class 2 Permissive Change (C2PC)

Equipment: **Enterprise Digital Assistant (EDA),**

FCC ID: **HD570ELGN**, initially granted: **2013-06-03**

FCC ID: **HD570ELG0**, initially granted: **2013-06-03**

FCC ID: **HD570EL00**, initially granted: **2013-05-29**

Grantee: **Honeywell International Inc**

To Whom It May Concern:

Pursuant to CFR47 §2.1043, Honeywell International Inc applies for a permissive change class II for the given equipment.

The reason for this C2PC application is to have the equipment certified under the changed U-NII rules published in the Report and Order ET Docket No. 13-49 and which became effective on June 2, 2014.

All above listed equipment uses the identical relevant HW/SW portion.
No actual changes to the HW/SW were required to comply with the changed U-NII rules.

The recognized lab of CETECOM Inc., Milpitas, California has verified through appropriate evaluation of the equipment and related documentation that the requirements of the new U-NII rules are fulfilled.

This C2PC application is further supported by updated exhibits where relevant.

Sincerely,

Michael Robinson
Compliance Manager, Scanning Systems
