

Brand Name: Edge-core 、Kwikbit
Model Name: MLTG-360 、K60DNxy (Refer to test report for detail information)

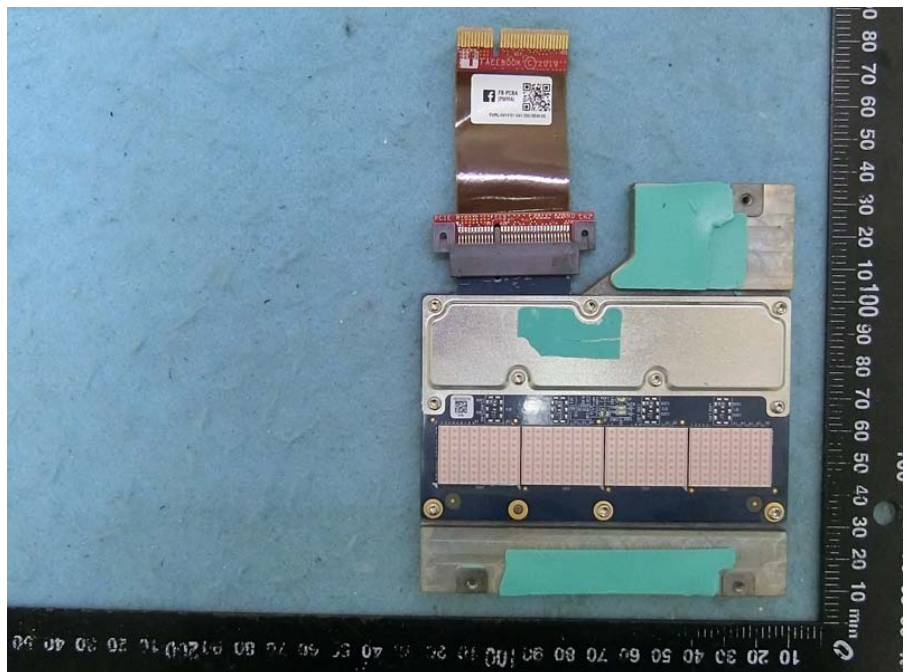

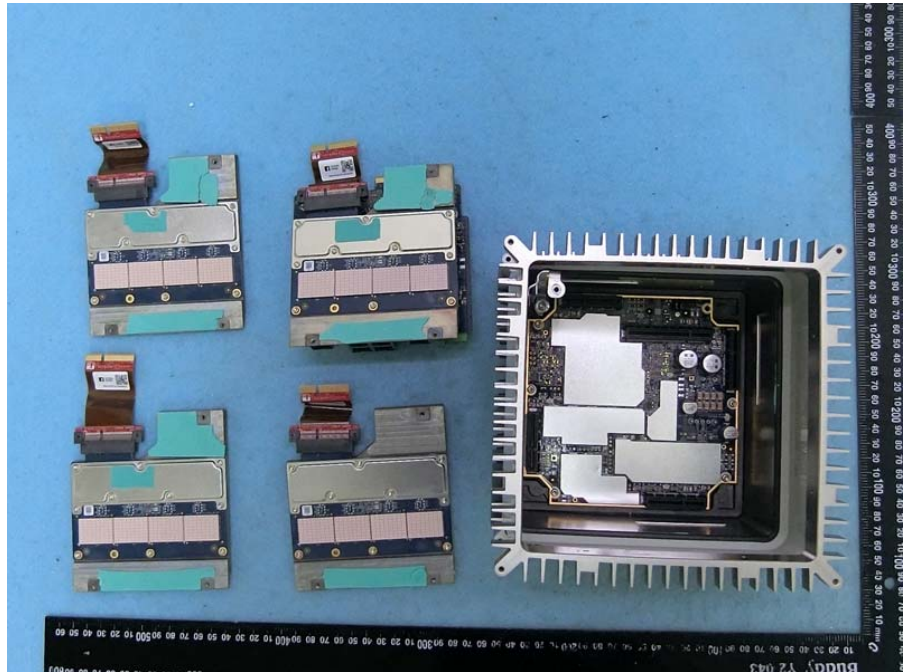

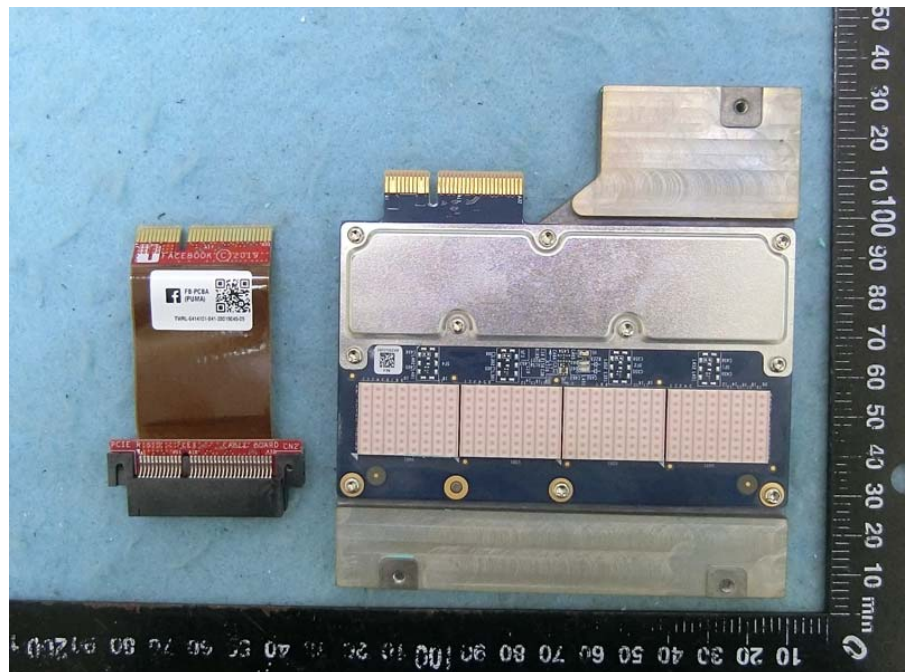

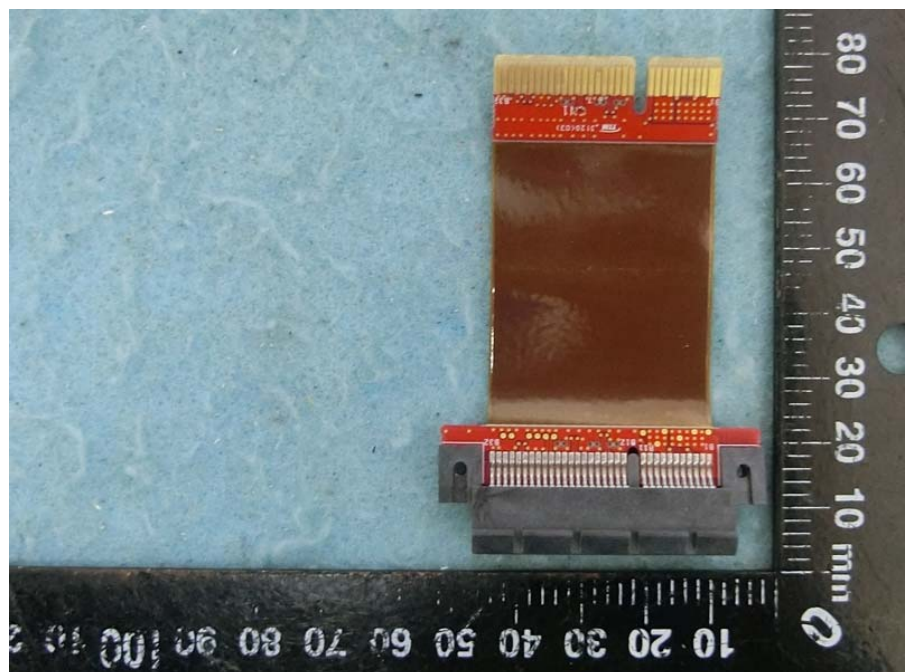

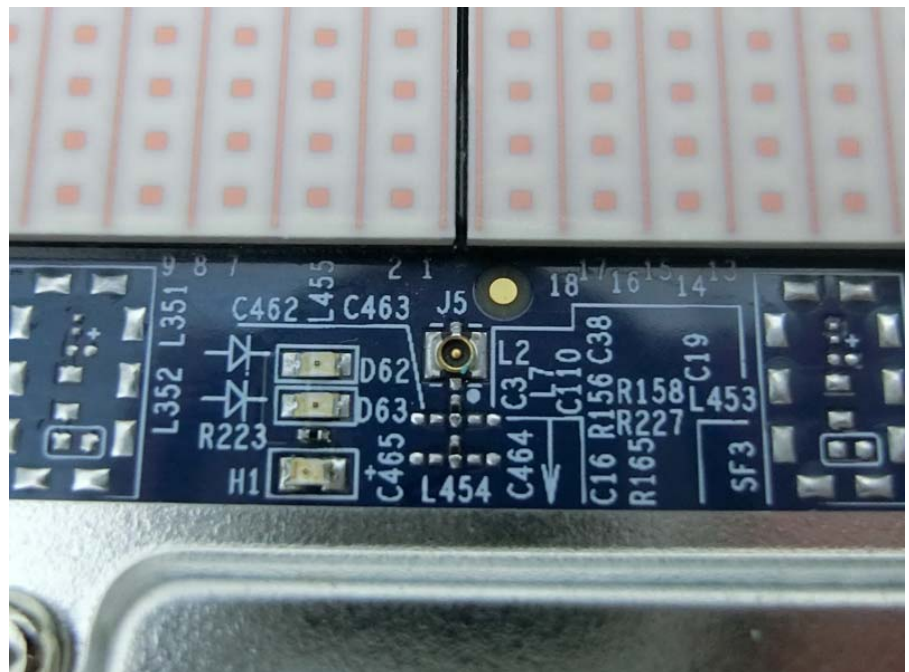

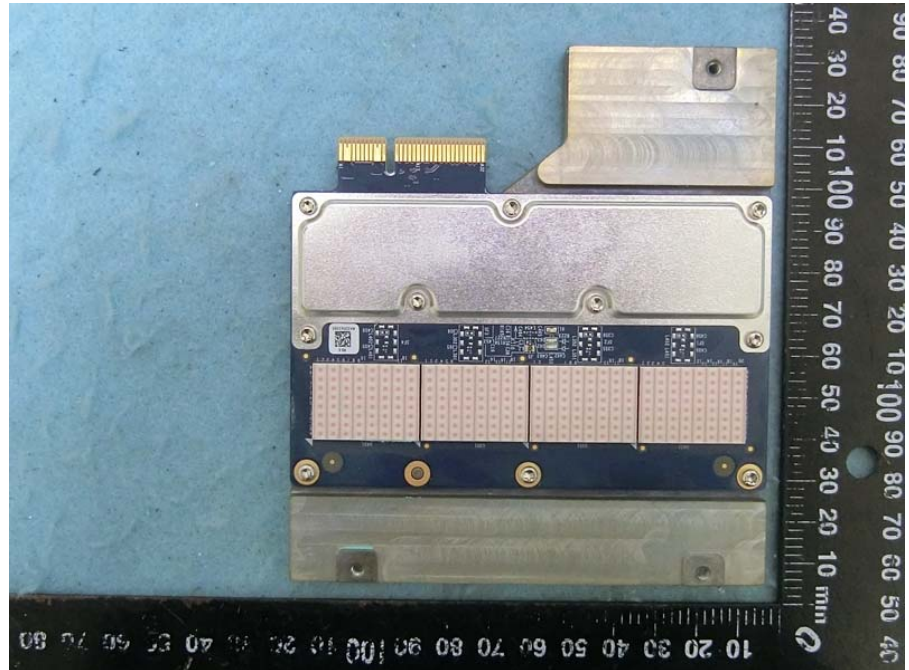

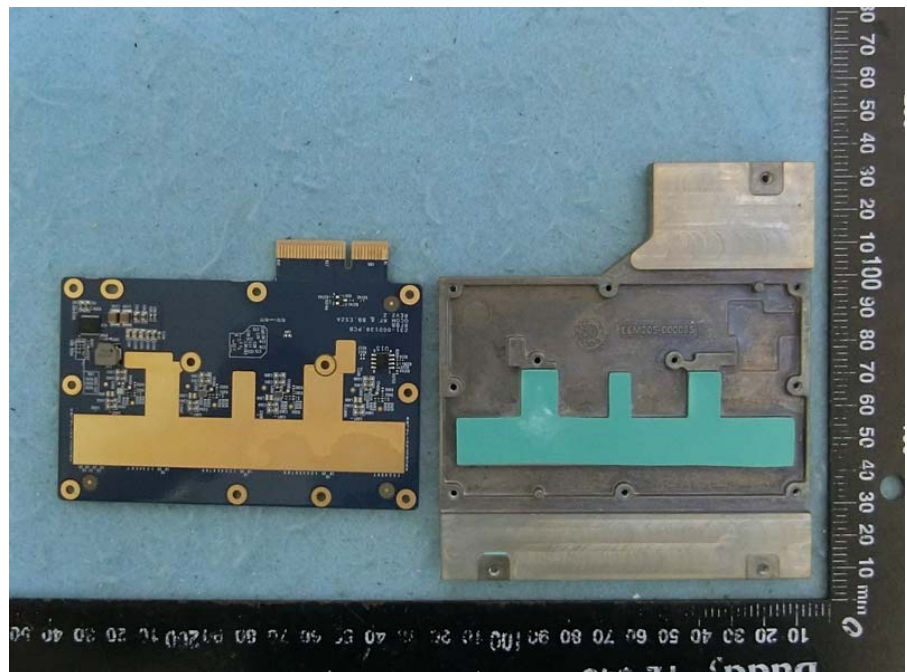

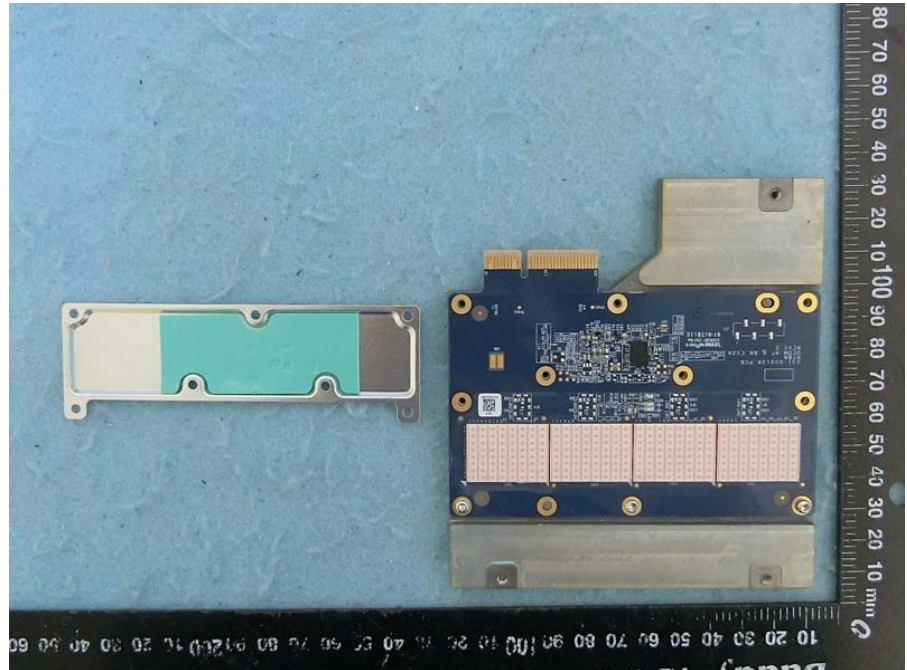

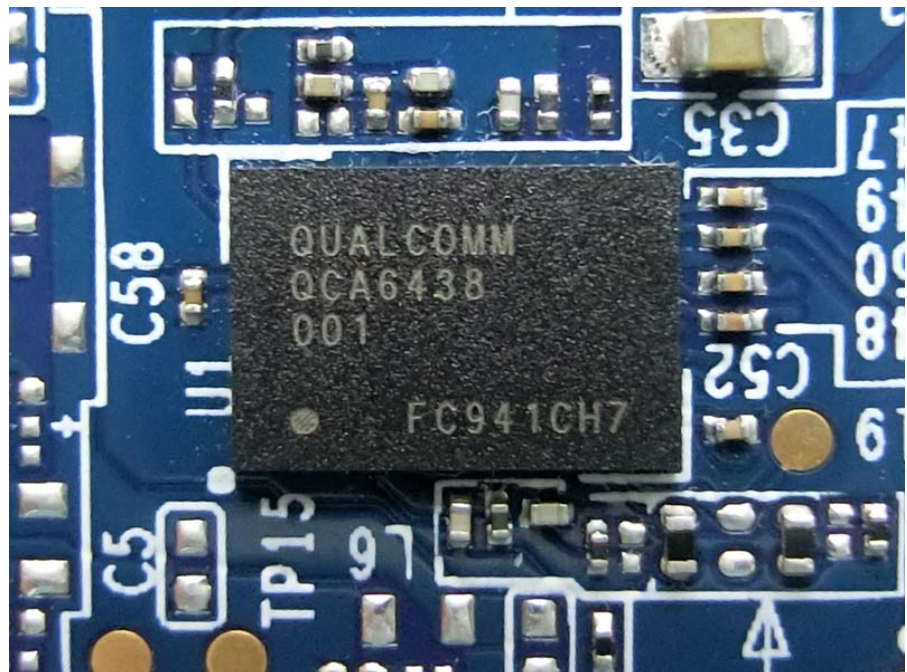

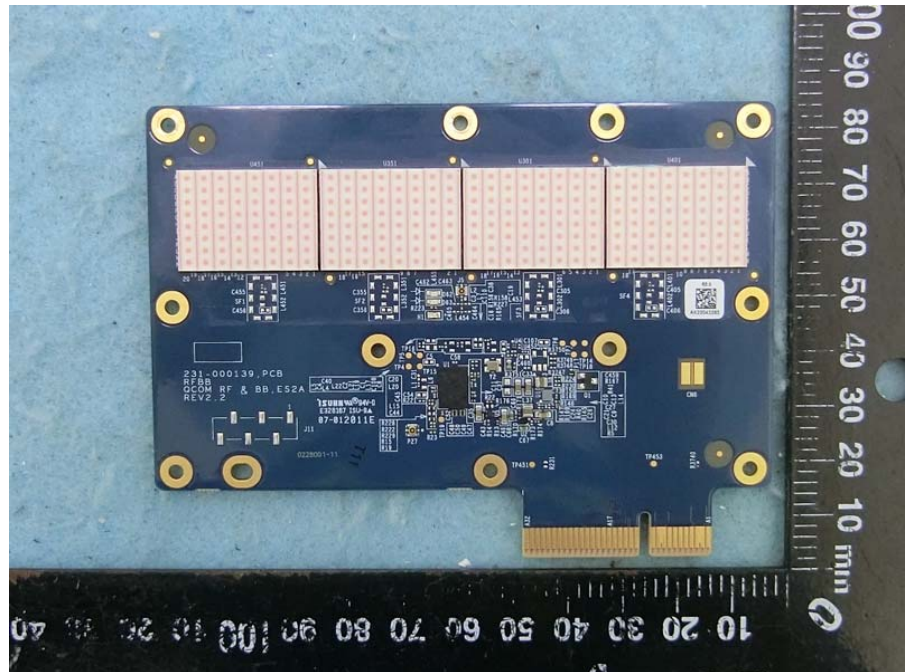

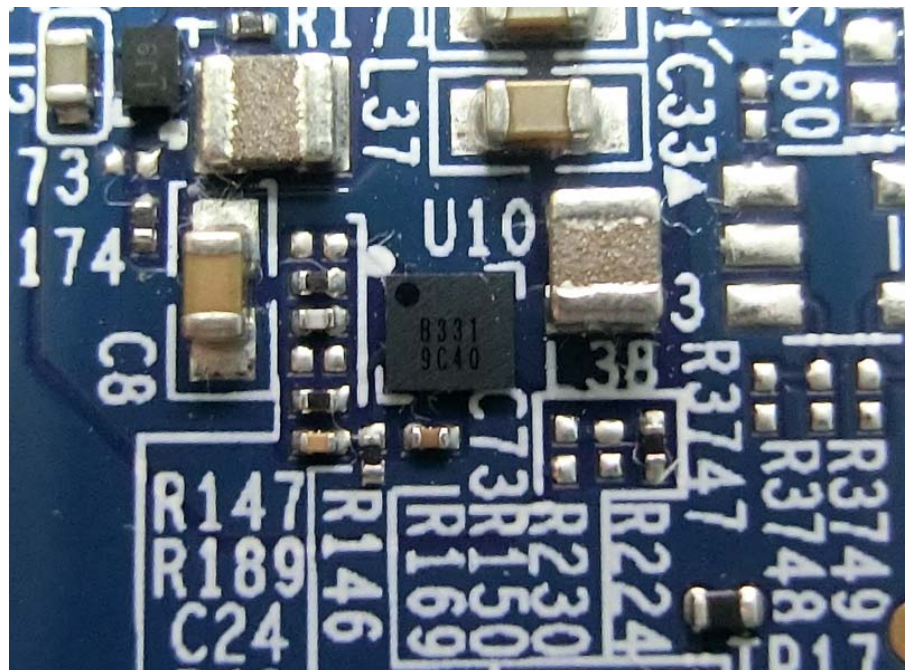

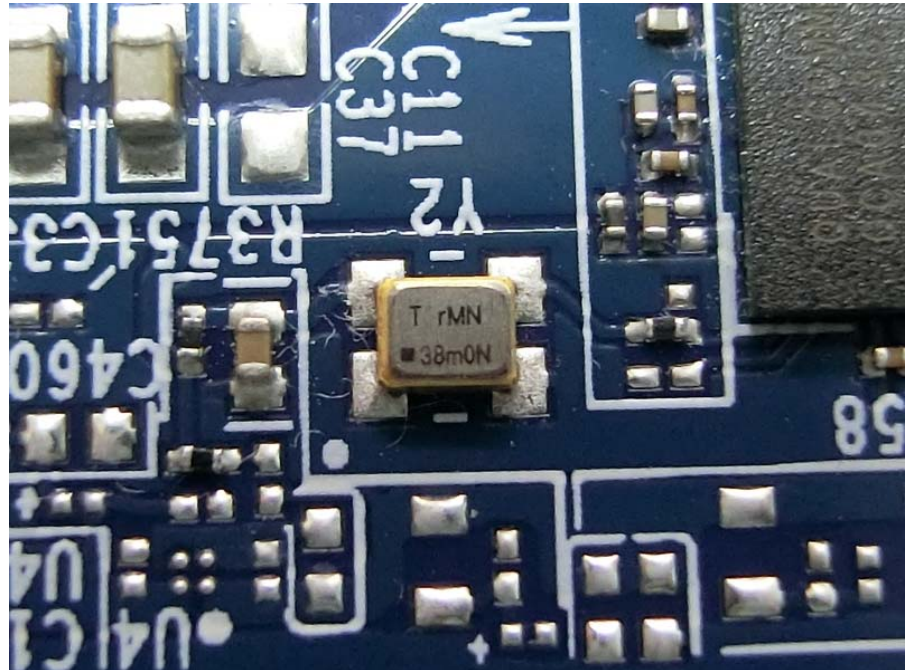

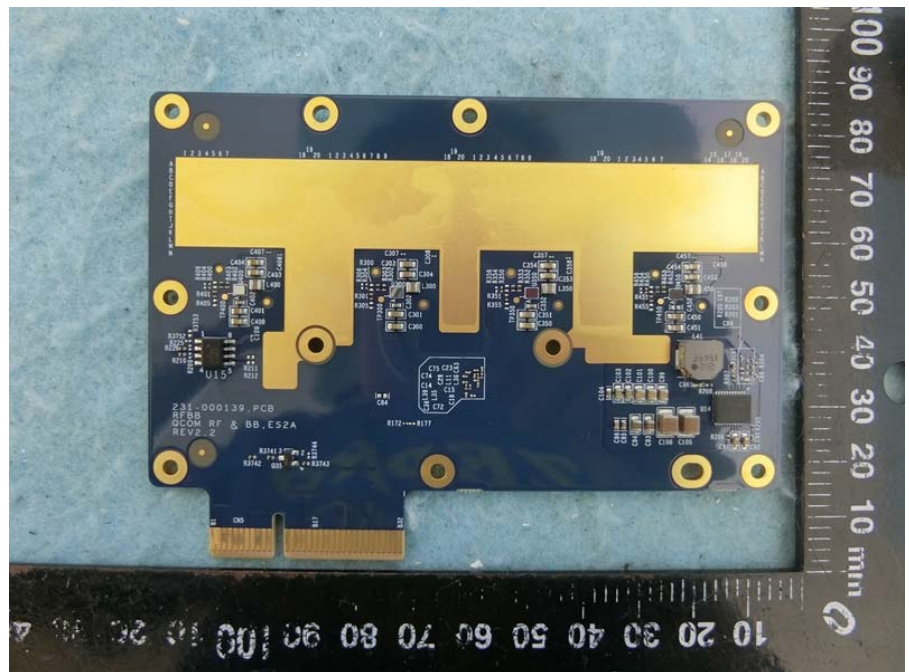

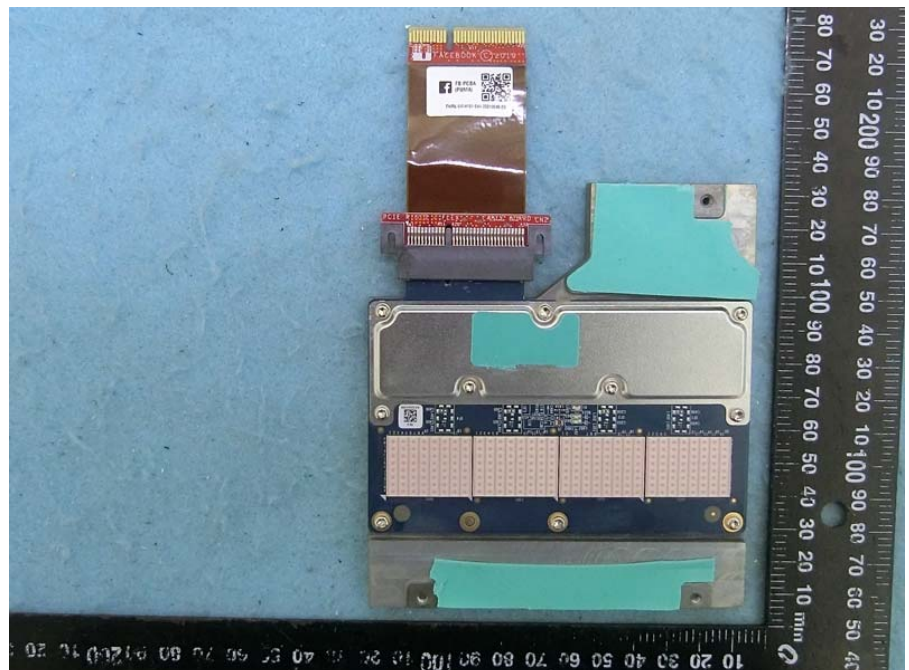

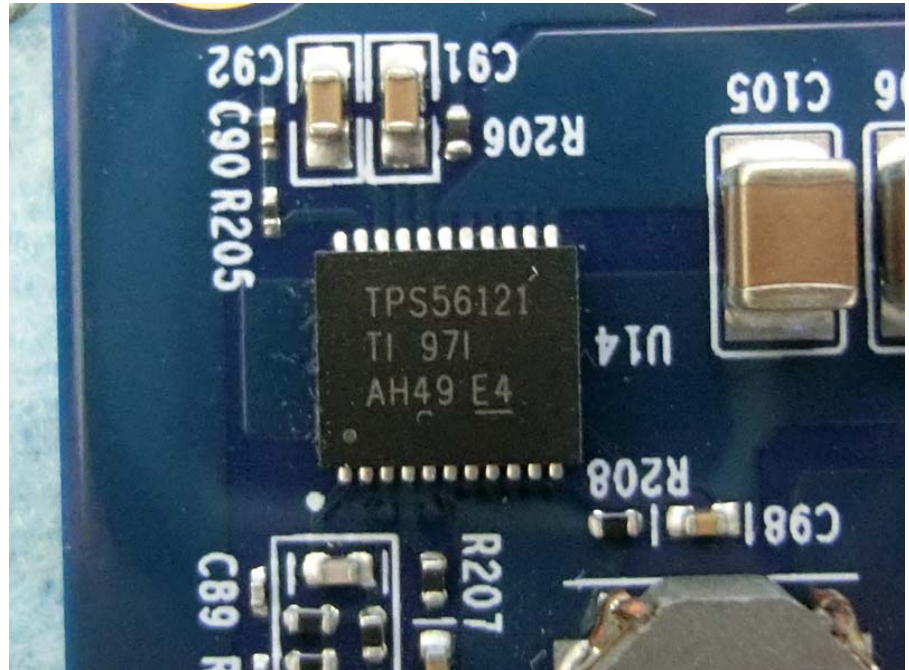

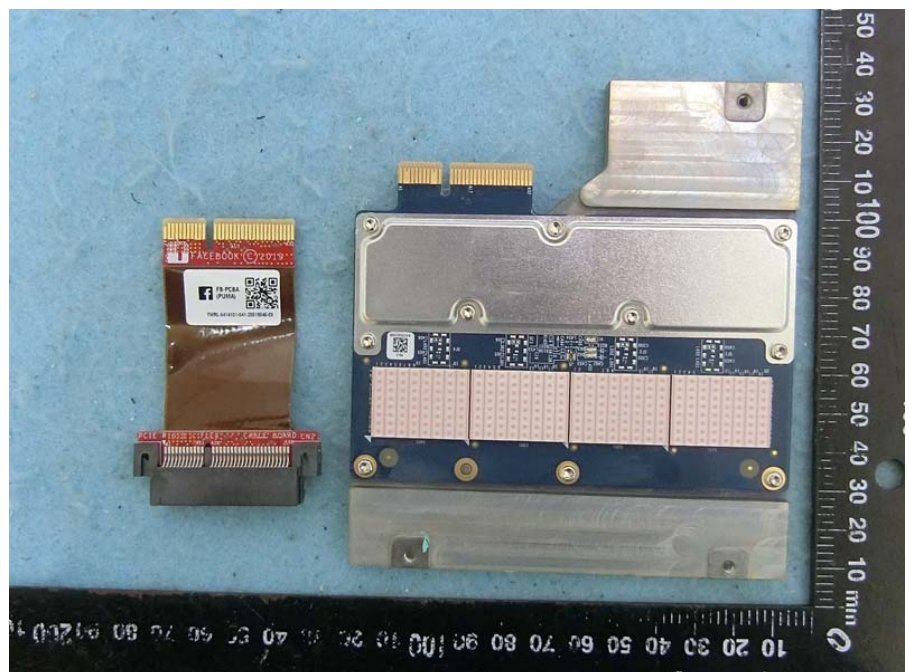

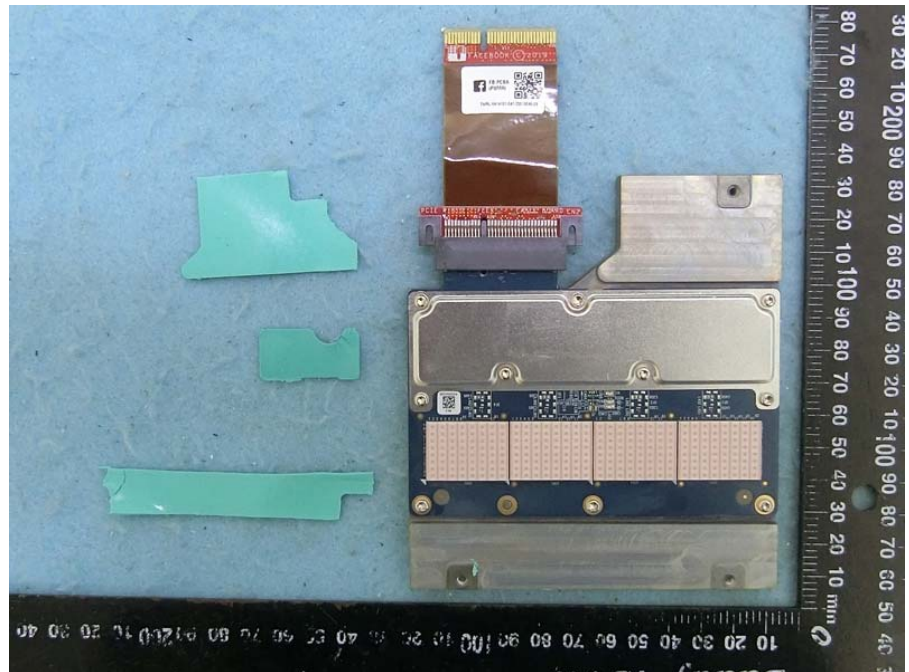

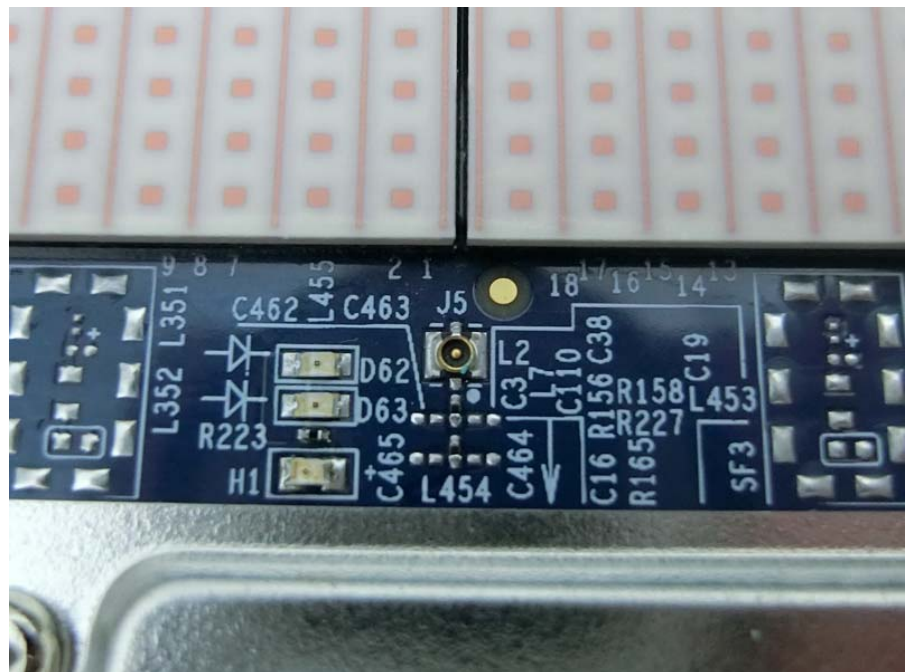

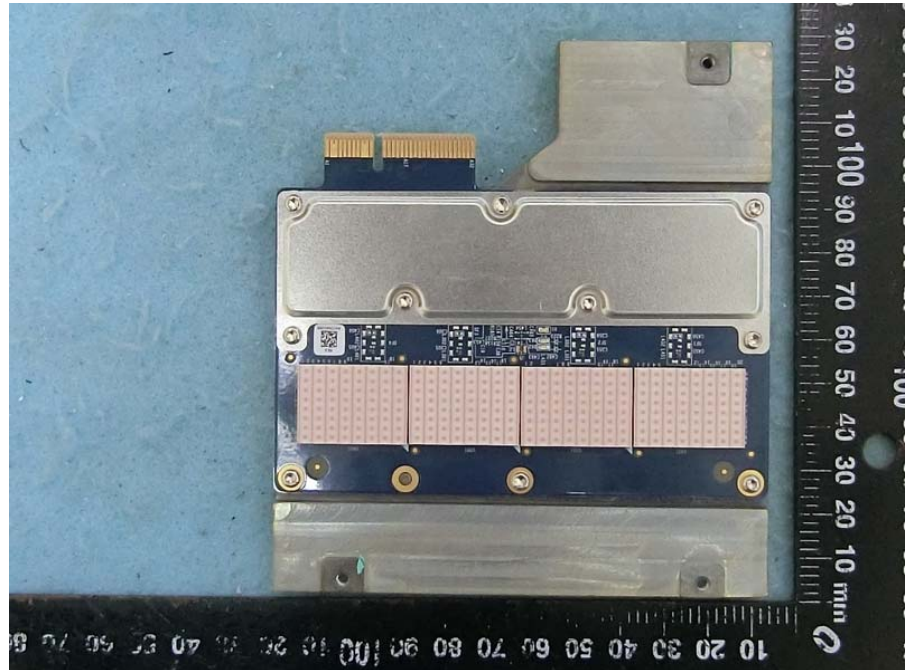

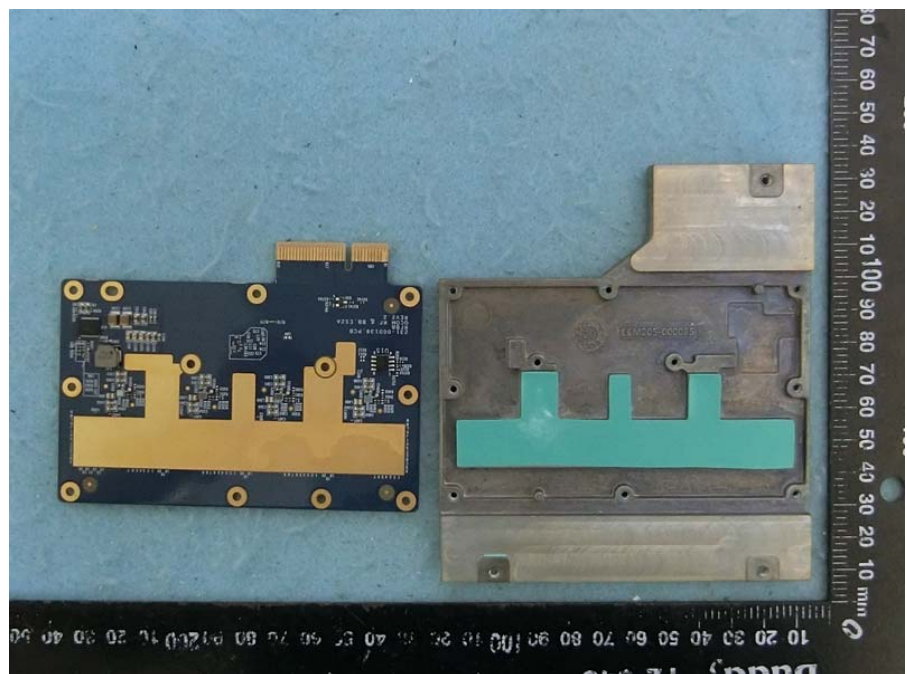

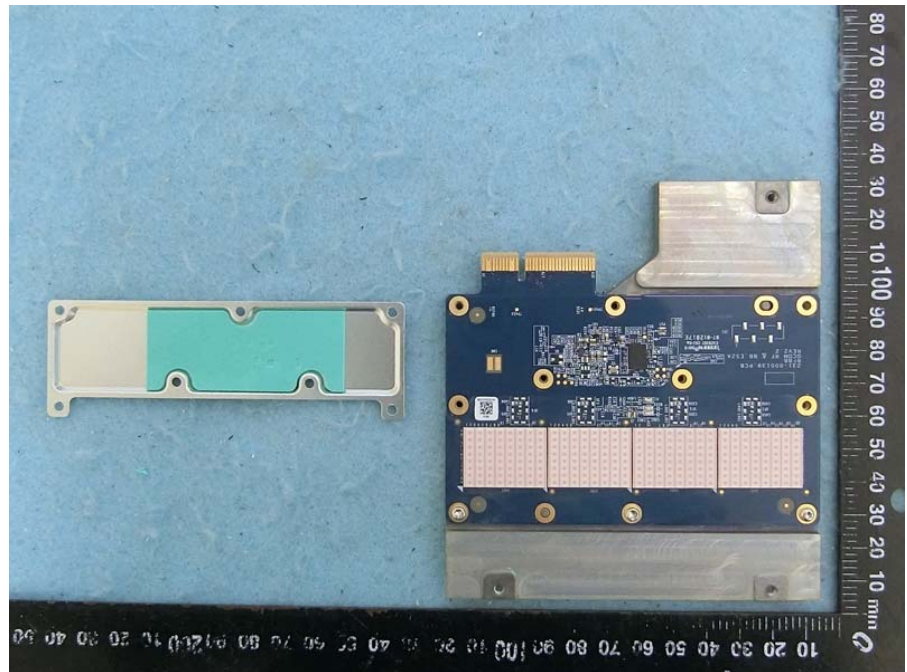

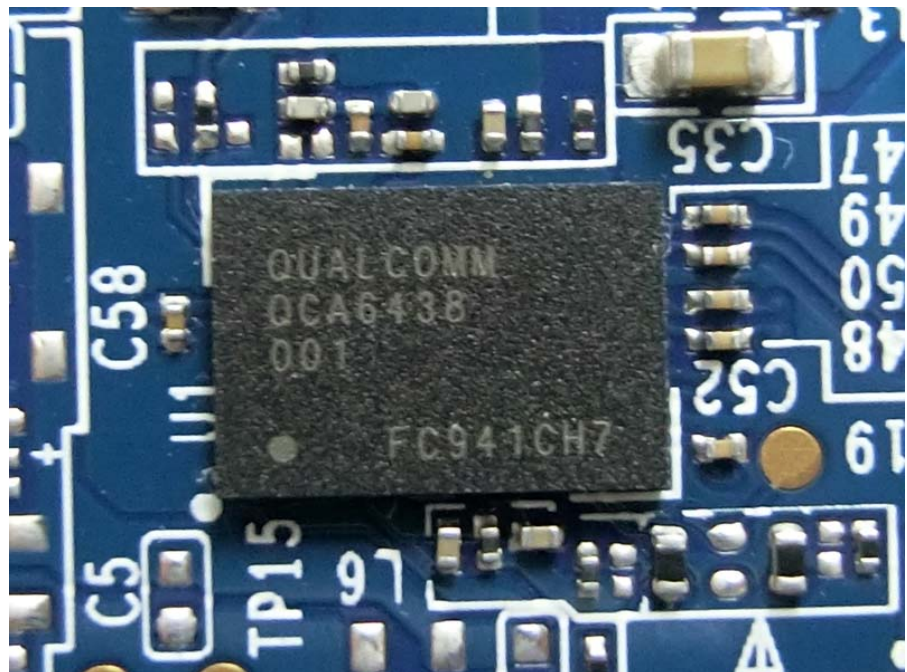

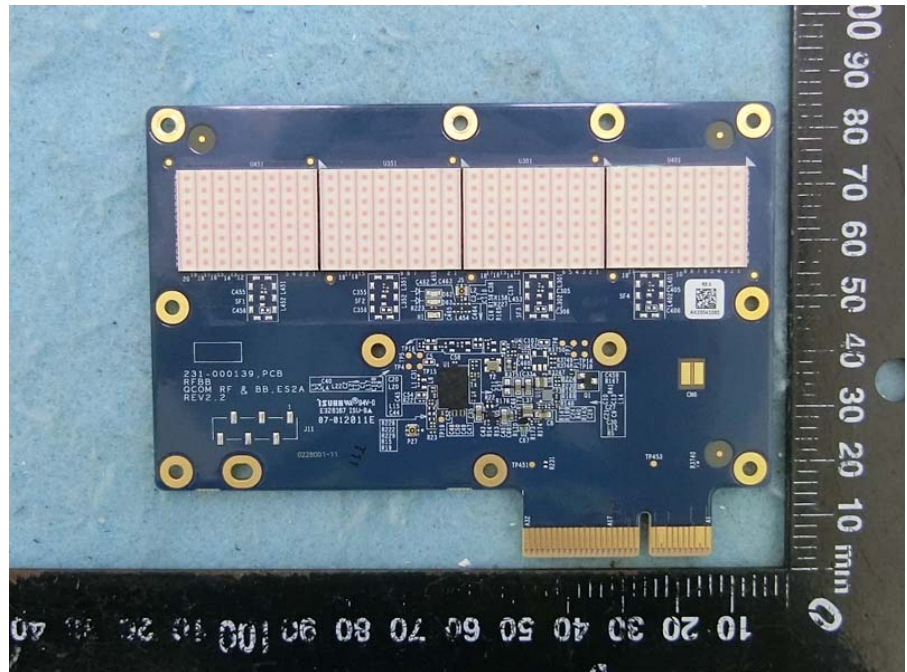

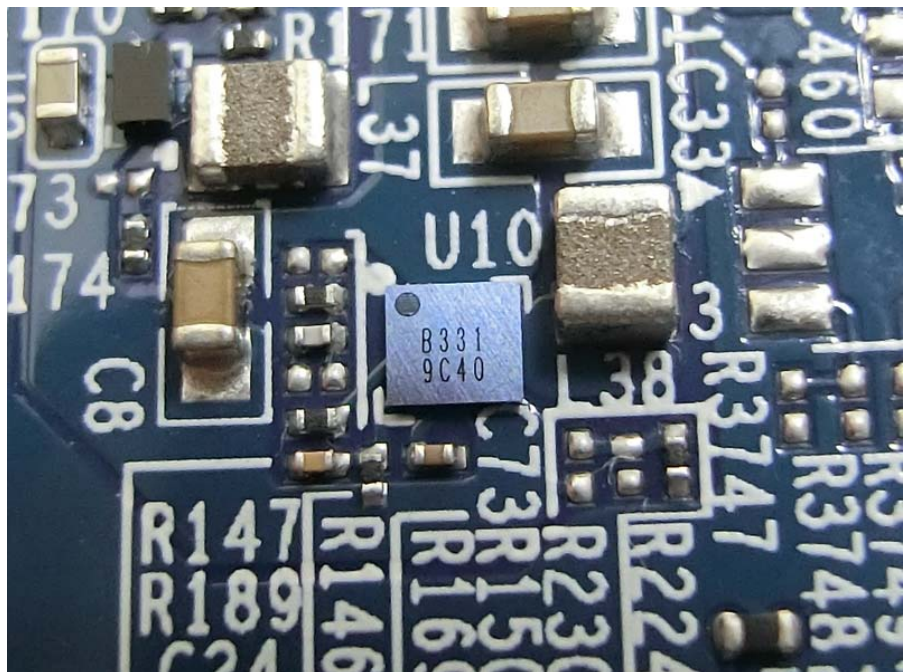

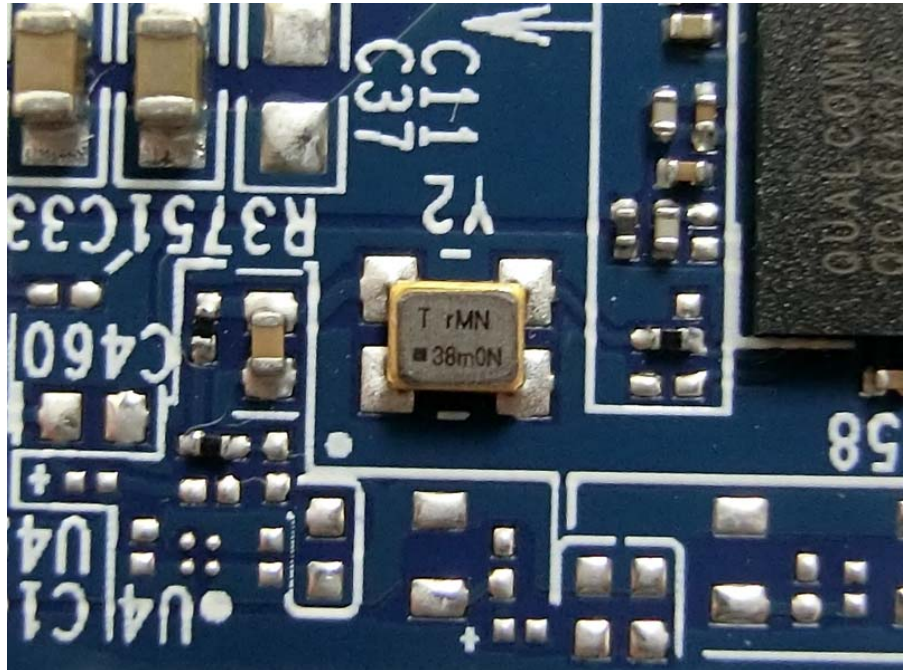

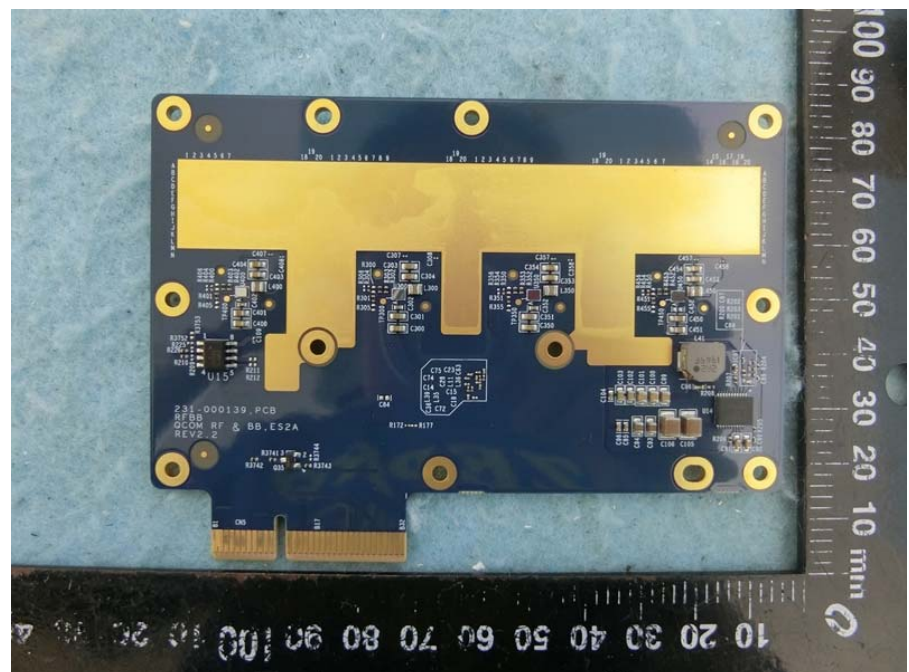

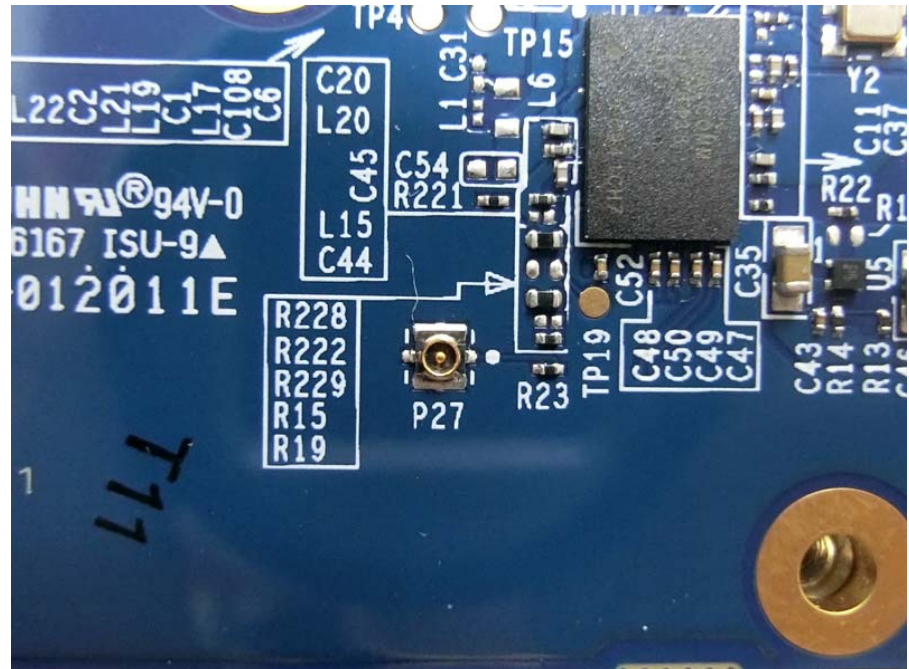

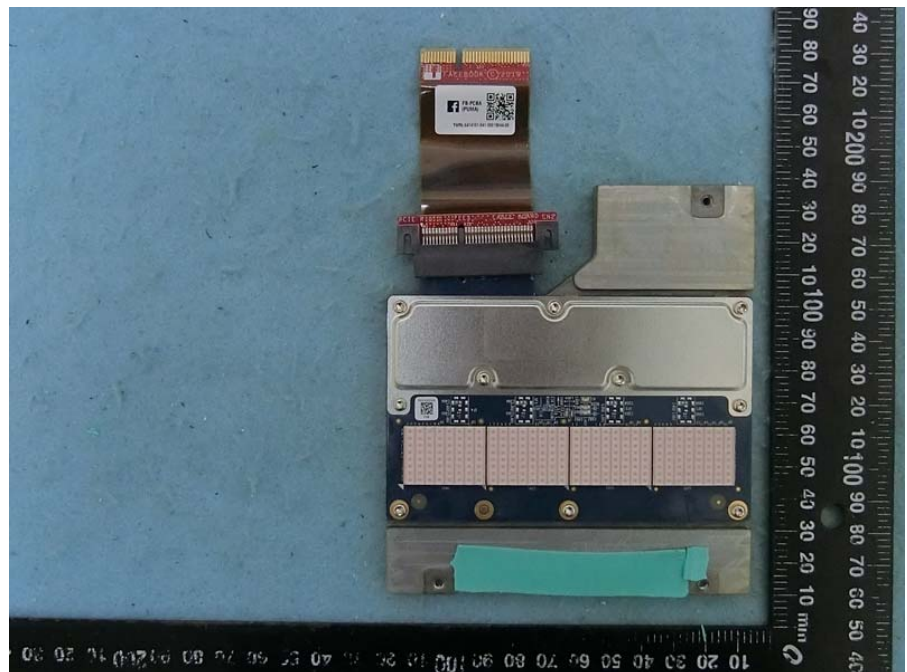

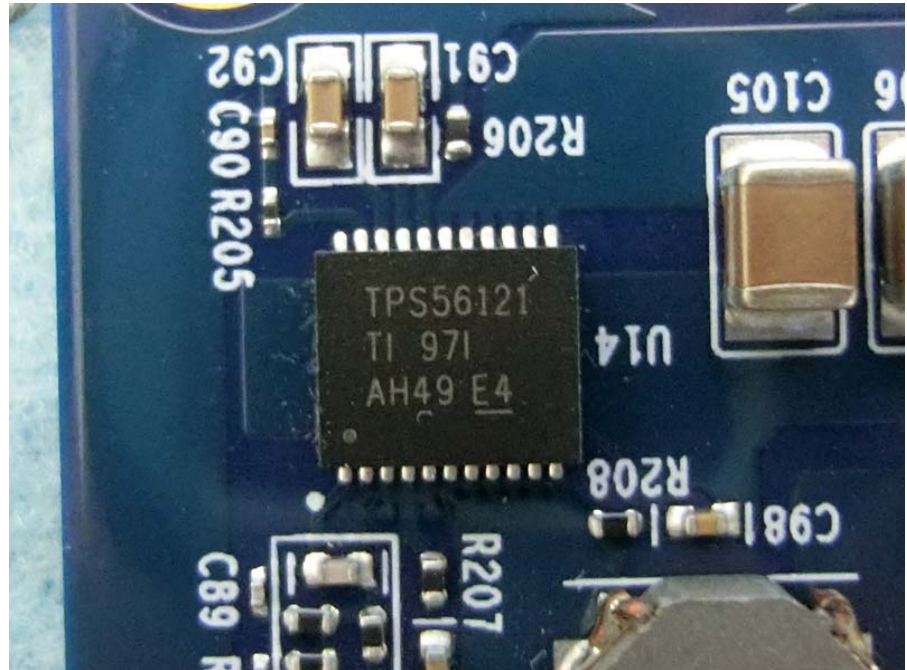

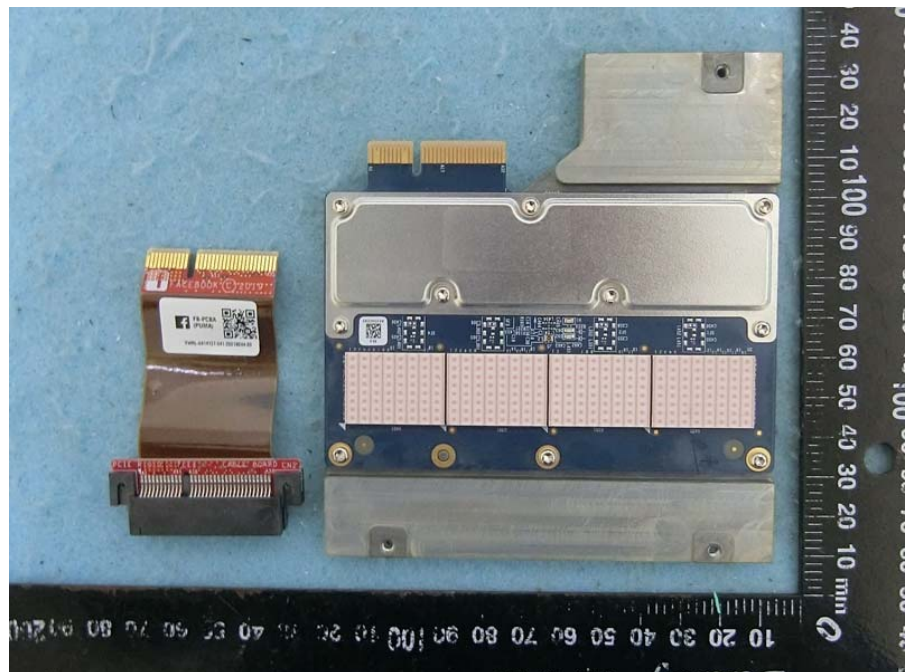

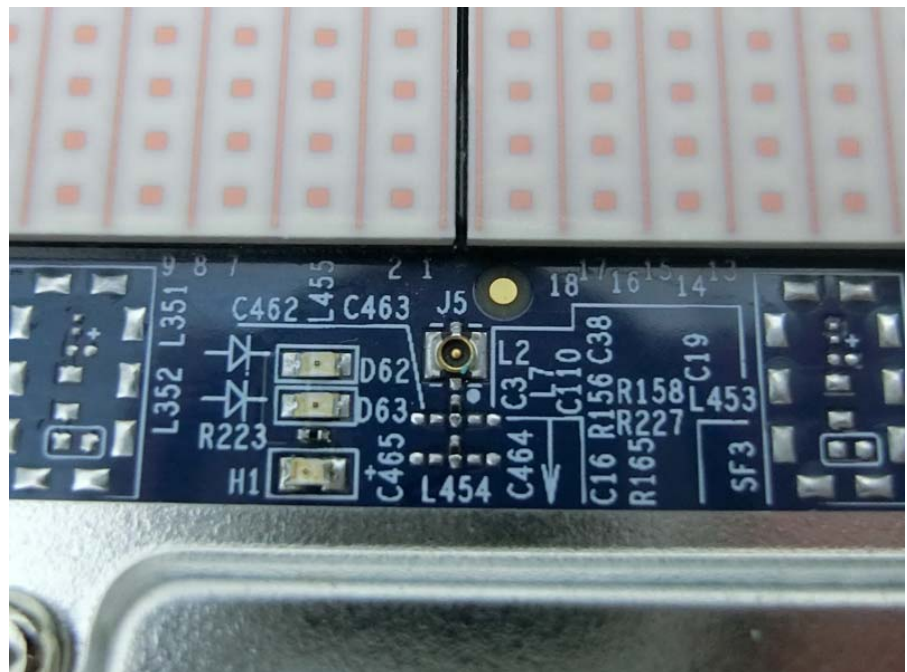

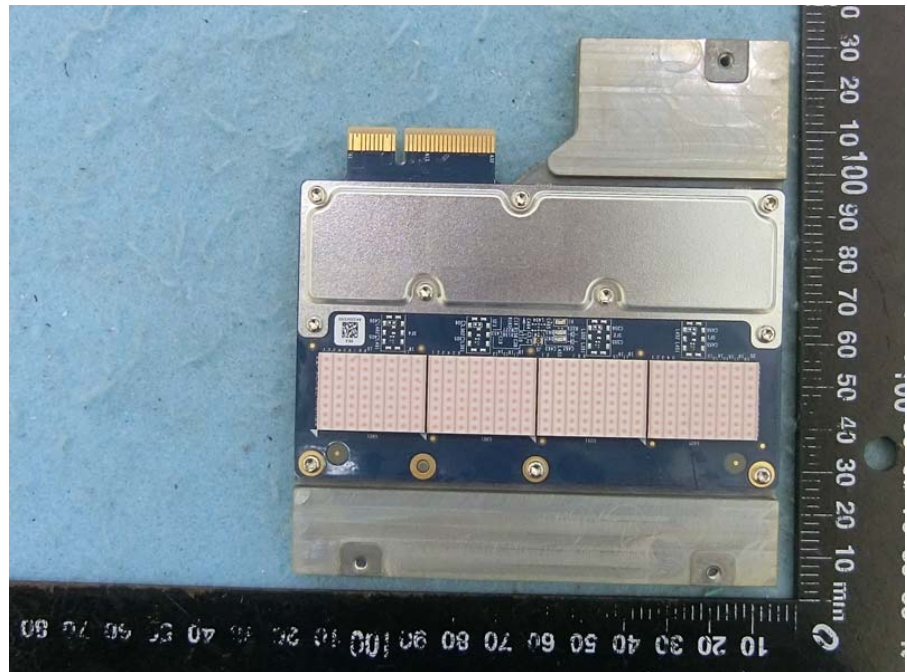

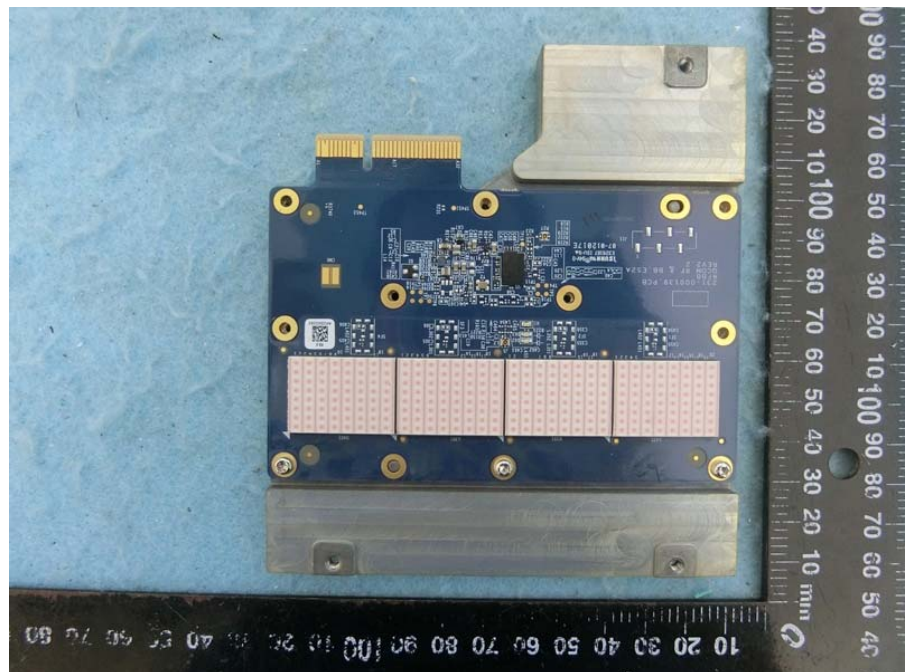

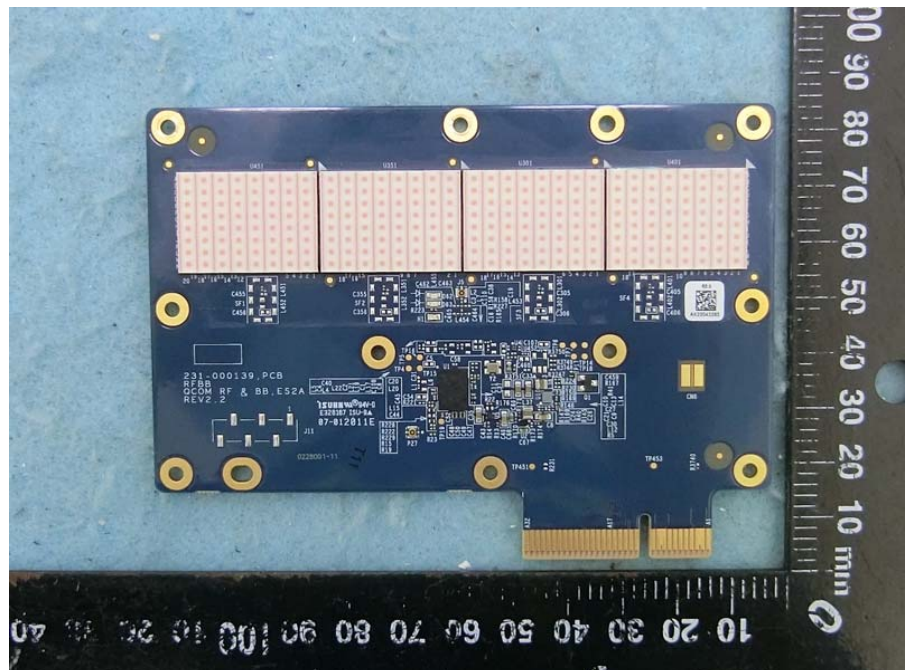

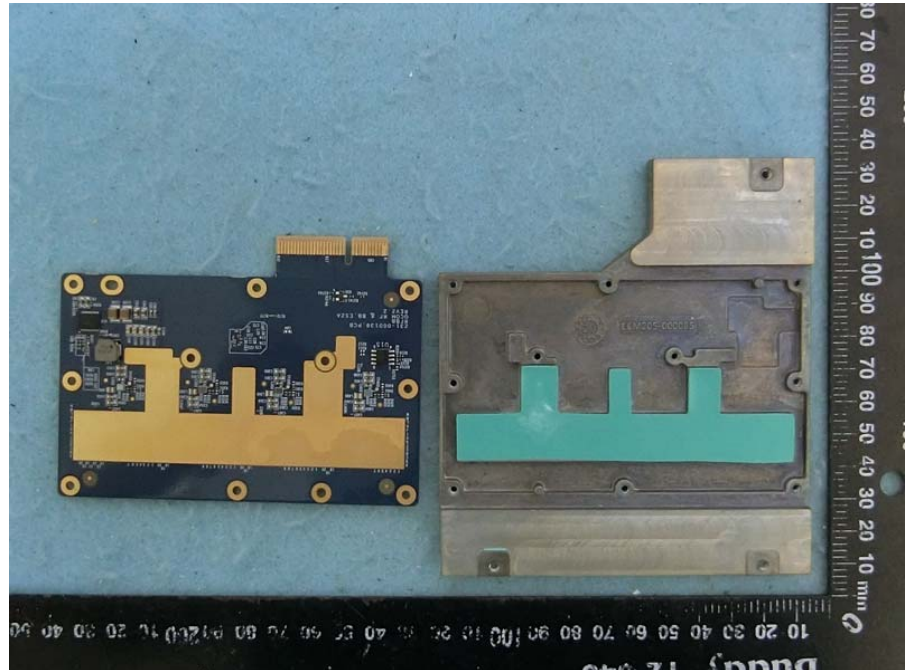

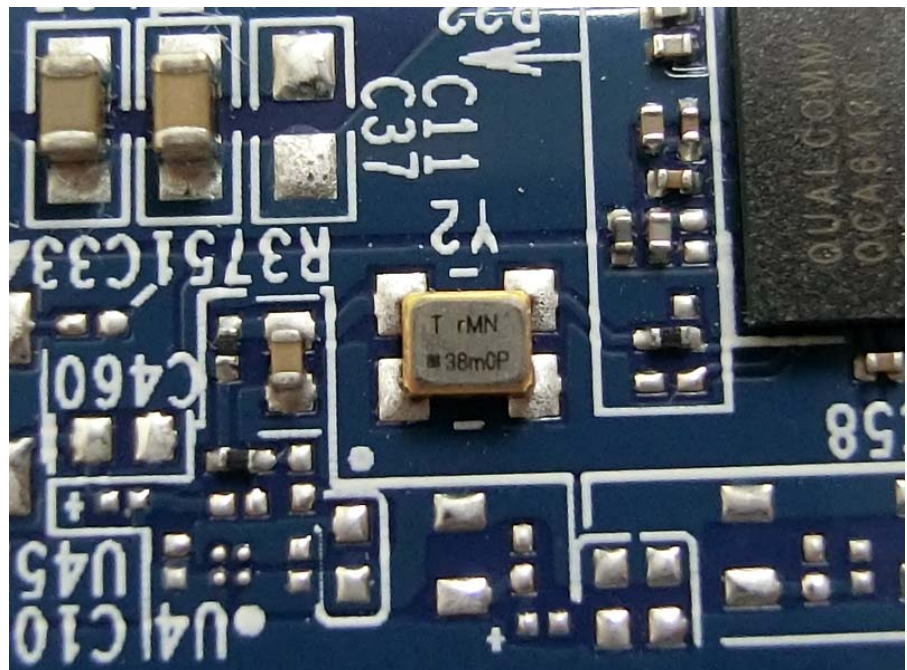

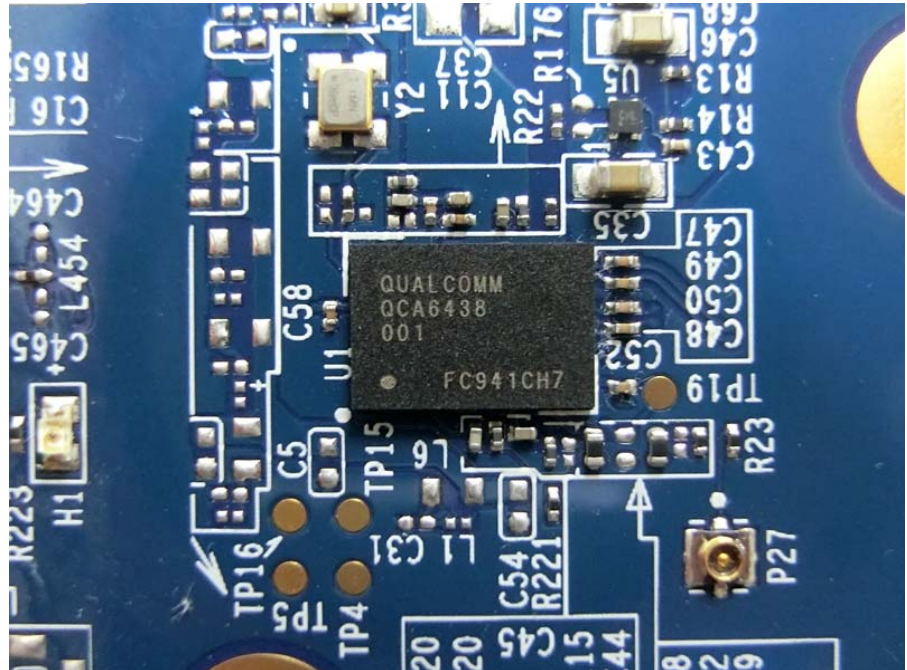

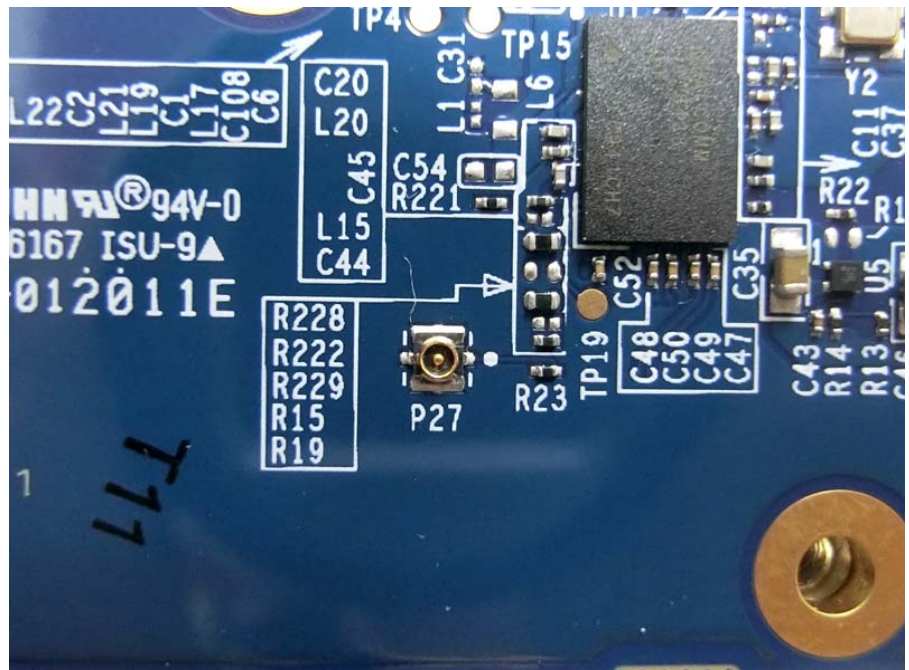

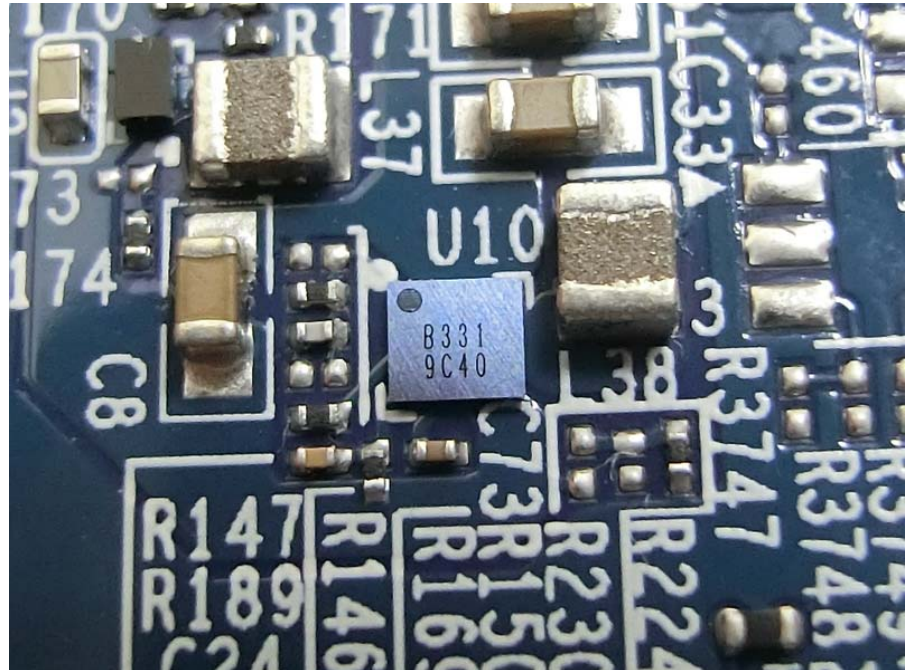

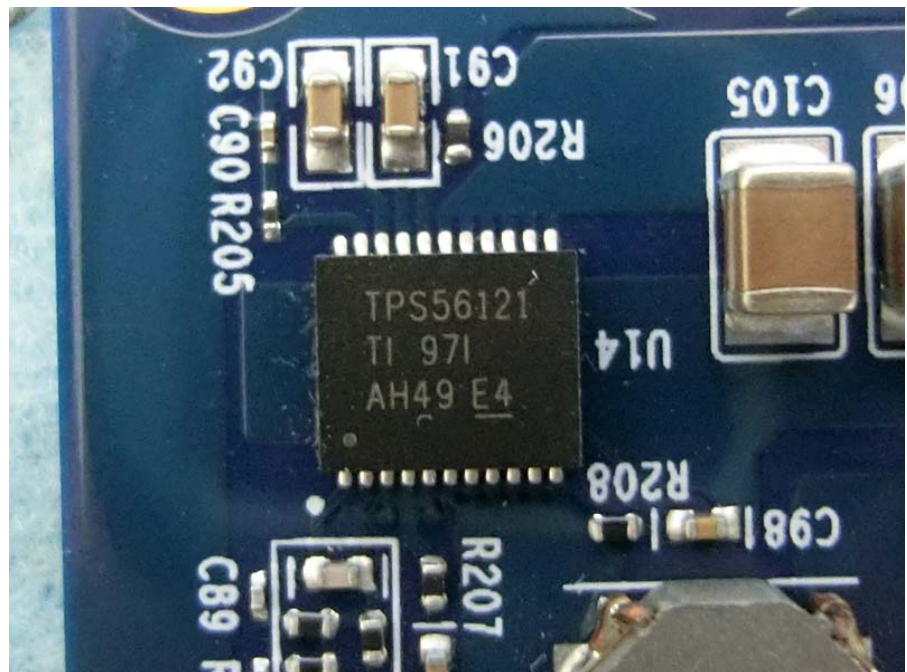

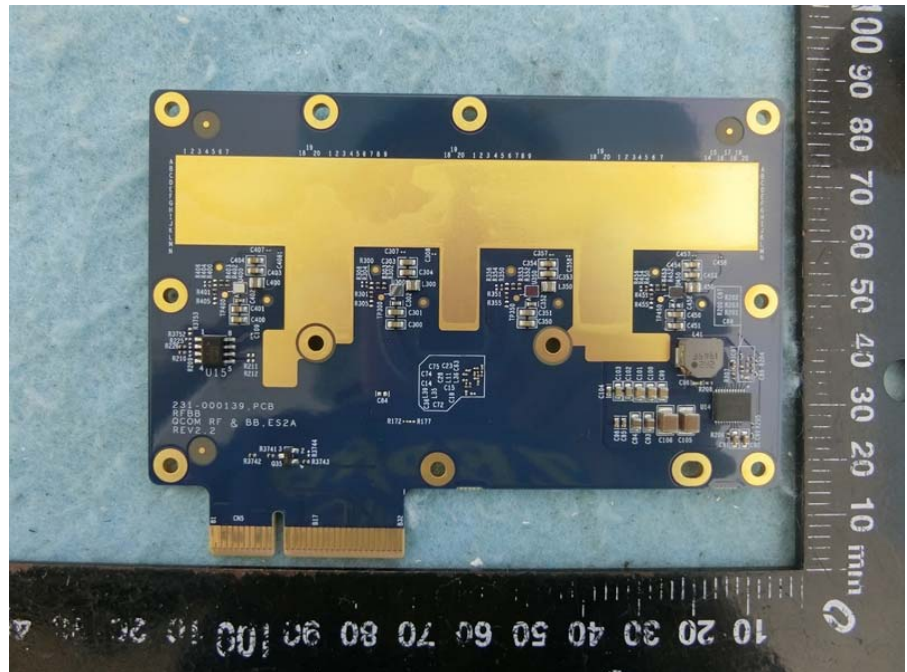

A photograph of a disassembled Samsung SSD. The main component is a blue printed circuit board (PCB) populated with four large, rectangular, light-colored NAND memory chips arranged in a row. Above the NAND chips is a silver-colored metal shield. A small white label with a QR code and the text "SAMSUNG ELECTRONICS" is visible on the left side of the PCB. A SATA-to-UASP adapter is connected to the top of the PCB. The adapter has a gold-plated SATA connector on one end and a USB-A connector on the other. A ruler is visible on the right side of the image, showing measurements in centimeters and millimeters.
