# Getting started

## Using your tablet

1. Connect the power adapter  
Charge your tablet for at least four hours.

**Note:** *It is normal for the device surface to become warm during charging or long periods of use.*

2. Press the power button  
Hold until you see the Acer logo.

## Connecting to the Internet via Wi-Fi

To connect to a Wi-Fi network, tap  the **Application** menu, then tap  **Settings**. Under *Wireless & networks*, ensure Wi-Fi is ON. Tap **Wi-Fi** and then tap a wireless network; if necessary enter a security password to access the network.

## How to register

To register your Acer product, visit our website at [registration.acer.com](http://registration.acer.com).

After we receive your product registration, you will be sent a confirmation email with important data that you should keep in a safe place.

## Your tablet's User's Manual

To download the User's Manual, go to [www.acer.com](http://www.acer.com) and click **Support** > **DRIVERS AND MANUALS**. Select the

appropriate items from **Group** > **Series** > **Products**. In the *Documents* tab, click **Download** next to the User's Manual.

## Connecting a Bluetooth device

To connect to a bluetooth device, tap  the **Application** menu, then tap  **Settings**. Under *Wireless & networks*, ensure Bluetooth is ON. Tap **Bluetooth** and then **SEARCH FOR DEVICES** to scan for available devices. Then tap an available device to select a device.

**Note:** *A2DP stereo headsets are supported for playback only. Please check for updates to the tablet's software that may add support for additional Bluetooth devices.*

## Restoring to factory settings

Tap  the **Application** menu, then tap  **Settings**. Tap **Backup & reset** > **Factory data reset**; tap **Reset tablet** and then **Erase everything** to format your tablet.

## Updating your tablet's operating system

To check for updates, tap  the **Application** menu, then tap  **Settings**. Then tap **About tablet** > **System updates** > **Check now**.

# Safety and comfort

## SAFETY INSTRUCTIONS

Read these instructions carefully. Keep this document for future reference. Follow all warnings and instructions marked on the product.

## Turning the product off before cleaning

Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.

## WARNINGS

### Accessing the power plug

Be sure that the power outlet you plug the power cord into is easily accessible and located as close to the equipment operator as possible. When you need to disconnect power to the equipment, be sure to unplug the power plug from the electrical outlet. Mark sure the power plug is fixed at right position with the adaptor before plugging to the socket on the wall.

**Input rating:** Refer to the rating label on the bottom of the computer and ensure that your power adapter complies with the specified rating.

Under no circumstances should the user attempt to disassemble the power supply. The power supply has no user-replaceable parts. Inside the power supply are hazardous voltages that can cause serious personal injury.

A defective power supply must be returned to your dealer.

### Using electrical power

- If an extension cord is used with this product, make sure that the total ampere rating of the equipment plugged into the extension cord does not exceed the extension cord ampere rating. Also, make sure that the total rating of all products plugged into the wall outlet does not exceed the fuse rating.
- Do not overload a power outlet, strip or receptacle by plugging in too many devices. The overall system load should not exceed 80% of the branch circuit rating. If power strips are used, the load should not exceed 80% of the power strip's input rating.

## General

- Do not use this product near water.
- Do not place this product on an unstable cart, stand or table. If the product falls, it could be seriously damaged.
- Slots and openings are provided for ventilation to ensure reliable operation of the product and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug or other similar surface. This product should never be placed near or over a radiator or heat register, or in a built-in installation unless proper ventilation is provided.
- Never push objects of any kind into this product through cabinet slots as they may touch dangerous voltage points or shortout parts that could result in a fire or electric shock. Never spill liquid of any kind into the product.
- To avoid damage of internal components and to prevent battery leakage, do not place the product on a vibrating surface.
- Your device and its enhancements may contain small parts. Keep them out of the reach of small children.

## Product servicing

Do not attempt to service this product yourself, as opening or removing covers may expose you to dangerous voltage points or other risks. Refer all servicing to qualified service personnel.

Unplug this product from the wall outlet and refer servicing to qualified service personnel when:

- The power cord or plug is damaged, cut or frayed.
- Liquid was spilled into the product.
- The product was exposed to rain or water.
- The product has been dropped or the case has been damaged.
- The product exhibits a distinct change in performance, indicating a need for service.
- The product does not operate normally after following the operating instructions.

**Note:** Adjust only those controls that are covered by the operating instructions, since improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to normal condition.

## DISPOSAL INSTRUCTIONS

Do not throw this electronic device into the trash when discarding. To minimize pollution and ensure utmost protection of the global environment, please recycle. For more information on the Waste from Electrical and Electronics Equipment (WEEE) regulations, visit [www.acer-group.com/public/Sustainability/sustainability01.htm](http://www.acer-group.com/public/Sustainability/sustainability01.htm)

## REGULATORY INFORMATION

### CAUTION when listening

- To protect your hearing, follow these instructions.
- Increase the volume gradually until you can hear clearly and comfortably.
- Do not increase the volume level after your ears have adjusted.
- Do not listen to music at high volumes for extended periods.
- Do not increase the volume to block out noisy surroundings.
- Decrease the volume if you can't hear people speaking near you.

### Prevention of hearing loss

**Caution:** Permanent hearing loss may occur if earphones or headphones are used at high volume for prolonged periods of time.

This device has been tested to comply with the Sound Pressure Level requirement laid down in the applicable EN 50332-1 and/or EN 50332-2 standards.

**Note:** For France, mobile headphones or earphones for this device have been tested to comply with the Sound Pressure requirement laid down in the applicable NF EN 50332-1:2000 and/or NF EN 50332-2:2003 standards as required by French Article L. 5232-1.

## WIRELESS ADAPTER REGULATORY INFORMATION

### Use on aircraft

**Caution:** FCC and FAA regulations prohibit airborne operation of radiofrequency wireless devices (wireless adapters) because their signals could interfere with critical interference with critical aircraft instruments.

### The Wireless Adapter and Your Health

The wireless adapter, like other radio devices, emits radio frequency electromagnetic energy. The level of energy emitted by the wireless adapter, however, is less than the electromagnetic energy emitted by other wireless devices such as mobile phones.

The wireless adapter operates within the guidelines found in radio frequency safety standards and recommendations.

These standards and recommendations reflect the consensus of the scientific community and result from deliberations of panels and committees of scientists who continually review and interpret the extensive research literature. In some situations or environments, the use of the wireless adapter may be restricted by the proprietor of the building or responsible representatives of the applicable organization.

Examples of such situations may include:

- Using the wireless adapter on board airplanes, or
  - Using the wireless adapter in any other environment where the risk of interference with other devices or services is perceived or identified as being harmful.
- If you are uncertain of the policy that applies to the use of wireless adapters in a specific organization or environment (an airport, for example), you are encouraged to ask for authorization to use the adapter before you turn it on.

### Products with 2.4 GHz wireless LAN devices

For 2.4 GHz wireless LAN operation of this product, certain restrictions apply. This equipment may use the entire 2400 MHz to 2483.5 MHz frequency band (channels 1 through 13) for indoor applications. For outdoor use, only 2400 - 2454 MHz frequency band may be used. For the latest requirements, see [www.art-telcom.fr](http://www.art-telcom.fr).

## Italy

The use of these equipments is regulated by:

- D.Lgs. n. 8.2003, n. 259, article 104 (activity: public authorization) for outdoor use and article 105 (free use) for indoor use, in both cases for private use.
- D.M. 28.5.03, for supply to public of RLAN access to networks and telecom services.

## Belgium

Dans le cas d'une utilisation privée, à l'extérieur d'un bâtiment, au-dessus d'un espace public, aucun enregistrement n'est nécessaire pour une distance de moins de 300m. Pour une distance supérieure à 300m un enregistrement auprès de l'IBPT est requis. Pour les enregistrements et licences, veuillez contacter l'IBPT.  
In geval van prive-gebruik, buiten een gebouw, op een openbare plaats, is geen registratie nodig, wanneer de afstand minder dan 300m is. Voor een afstand groter dan 300m is een registratie bij BIPT vereist. Voor registraties en licenties, gelieve BIPT te contacteren.

## Heat Build-up and Portable Computers

The AC adapter and the underside of the computer can become hot after prolonged use. Sustained physical contact with either should be avoided.  
COMPLIANT WITH RUSSIAN REGULATORY CERTIFICATION

## SAR information

RF exposure information (SAR)  
This device meets the EU requirements (1999/519/EC) on the limitation of exposure of the general public to electromagnetic fields by way of health protection. The limits are part of extensive recommendations for the protection of the general public. These recommendations have been developed and checked by independent scientific organizations through regular and thorough evaluations of scientific studies. To guarantee the safety of all persons, regardless of age and health, the limits include a significant safety buffer.

Before radio devices can be put in circulation, their agreement with European laws or limits must be confirmed; only then may the CE symbol be applied.  
The unit of measurement for the European Council's recommended limit for mobile devices is the "Specific Absorption Rate" (SAR). This SAR limit is 2.0 W/kg, averaged over 10 g of body tissue. It meets the requirements of the International Commission on Non-Ionizing Radiation Protection (ICNIRP). The maximum SAR value is calculated at the highest output level in all frequency bands of the mobile device. The highest SAR value reported under this standard during product certification for use of the device at a distance of 0 cm from the body.  
During use, the actual SAR level is usually much lower than the maximum value, because the mobile device works in different output levels. It only transmits with as much output as is required to reach the network. In general the following applies: The

closer you are to a base station, the lower the transmission output of your mobile device.

## Environment

- Temperature
  - Operating: 0 °C to 35 °C
  - Non-operating: -20 °C to 60 °C
