Attn: Equipment Authorization Branch

Subject: Application for FCC Certification on Wireless LAN Module
Model No.: MPCI-101
FCC ID: HLZMPCI-101

Dear Sir:

We would like to apply for FCC Class II Permissive Change Certification on the subject model (EUT). The reason for Permissive Change are as following

1. the antenna of EUT has been changed
2. EUT will be installed in a new Notebook PC for AOpen Inc Model: MS2108

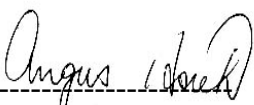

The EUT except the antenna is exactly the same as the Wireless LAN Module which we applied the first and the second Class II Permissive Change of subject model and was granted on 3/1/2001 and 5/28/2001 respectively.

Due to the Block Diagram, Schematic Diagram, and User's Manual of EUT is exactly the same as we filing to FCC before, so we will not provide the above document in this filing.

We provide the test report and photos of EUT for your evaluation.

Please review the information we submitted and issue us a grant for the subject model. If you have any comments, please do not hesitate to contact us.

Yours sincerely,

Angus Hsieh / Sr. Director
