Attn: Equipment Authorization Branch

Subject: Application for FCC Certification on Wireless LAN Module
Model No.: MPCI-101
FCC ID: HLZMPCI-101

Dear Sir:

We would like to apply for FCC Class II Permissive Change Certification on the subject model (EUT). The reason for Permissive Change are as following:

1. the antenna of EUT has been changed
2. EUT will be installed in a new Notebook PC for Acer Inc Model: MS2101

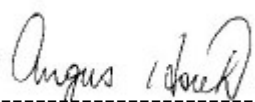

The EUT except the antenna is exactly the same as the Wireless LAN Module which we applied the first, the second, 3th, 4th, 5th Class II Permissive Change of subject model and was granted on 3/1/2001, 5/28/2001, 11/08/2001, 01/11/2002, and 04/15/2002 respectively.

Due to the Block Diagram, Schematic Diagram of EUT is exactly the same as we filed to FCC before, so we will not provide the above document in this filing.

We provide the test report, photos, and a new User's Manu of EUT for your evaluation.

Please review the information we submitted and issue us a grant for the subject model. If you have any comments, please do not hesitate to contact us.

Yours sincerely,

Angus Hsieh / Sr. Director
