

Attachment: User Manual

A yellow sheet will be added to each package with the following FCC statement.

FCC Compliance Statement for American Users

This device complies with part 15 of the FCC Rules and meets all requirements of the Canadian Interference-Causing Equipment Regulations. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

NOTE:

This equipment has been tested and found to comply with the limits for class B rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/T.V. technician for help
- Use the attached shielded cable for connection between the computer and the video source.

Any changes or modifications not expressly approved by the manufacture of this device may void the user's authority to operate the device.
