

SPECIAL FEATURES

DETECTS ALL BANDS
of Laser, Radar, and SWS™.

CITY MODE

Reduces the number of false alerts.

ALERT PRIORITY

Warns you of the greatest threat when two or more signals are received at the same time.

SEPARATE LASER-RADAR AUDIO ALERTS

Distinct audio tones instantly confirm detection of Laser, X, K, Ka or Safety Radar.

QUIET MODE

Silences audio alerts while displaying visual alerts.

SAFETY WARNING SYSTEM™ (SWS)

Is a type of radar used to keep you informed of highway safety. Transmitters are installed and programmed to make you aware of possible situations such as an ambulance, fire truck, or road detour.

WHISTLER
LASER-RADAR
DETECTOR
1710A

Laser-Radar Detectors ARE LEGAL IN EVERY STATE with the exception of Virginia and Washington D.C., which have local regulations restricting the use of radar receivers in any vehicle when used in automobiles or light trucks (under 10,000 lbs.).
