

6.3. Installation Description

BTA-01A shall be installed in the navigation system as shown in Fig.6.3.

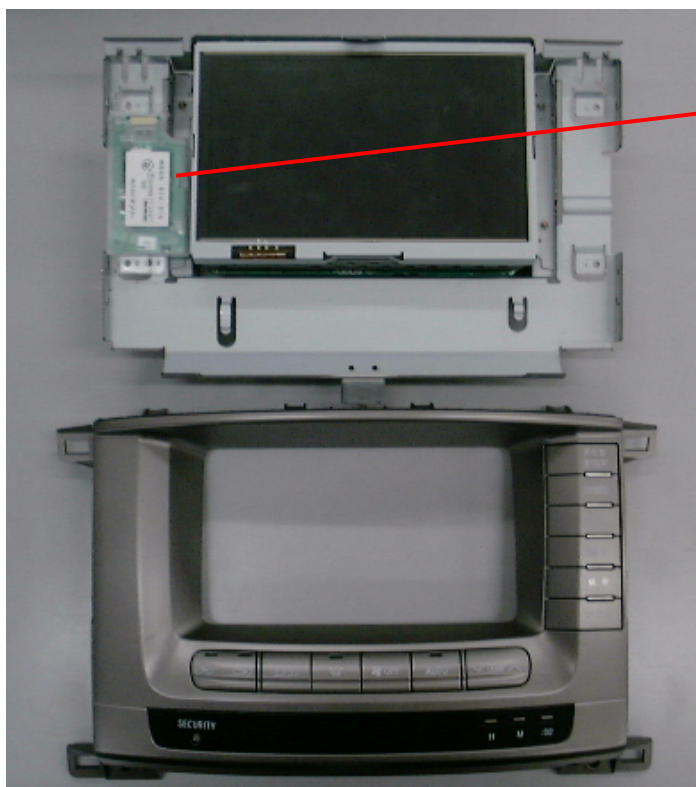

When BTA-01A is installed in the navigation system, we as OEM shall consider the following points;

1. Since BTA-01A owns its FCC ID number, we shall affix an exterior label on the outside of the navigation system if the FCC ID is not visible. The exterior label shall use wording such as either "Contains Transmitter Module FCC ID: HYQBTA01A" or "Contains FCC ID: HYQBTA01A".
2. BTA-01A complies with requirements of sub-sections 15.203, 15.205, 15.209 and 15.247 in FCC Rules Part 15. We shall install BTA-01A in accordance with their requirements.
3. BTA-01A complies with requirements of the sub-section 2.1091. When installers install BTA-01A into the navigator system, they shall ensure that the public is not exposed to radio frequency energy levels in excess of the Commission's guidelines in accordance with the sub-section 15.247(b)(4) in FCC Rules Part 15.
