Declaration

To whom it may concern,

This is a WLAN/Bluetooth combination antenna with FCC ID: **I46-INA-WIFIUSB-4**. The WLAN/Bluetooth co-existence mechanism ensures that the WLAN and Bluetooth transmitters will not simultaneously operate. Therefore, the WLAN and Bluetooth services in FCC ID: **I46-INA-WIFIUSB-4** should not be considered as able to transmit simultaneously.

Though it may appear to users that they can use WLAN and Bluetooth services simultaneously, in reality the WLAN and Bluetooth services utilize time-sharing and do not combine or overlap in their transmissions.

Should you have any question, please have my best attention.

Sincerely yours,

Tom Slawik / Senior Regulatory Engineer
