

Date: 26.MAY.2005 15:45:58

At the lower bandedge,
the attenuation is at
least 50dB.

Date: 26.MAY.2005 15:43:15

At the upper bandedge,
the attenuation is about
48.1 dB.
Field strength at the
bandedge = $81.5 - 48.1$
= 33.4 dBuV/m at 3m
which is less than the
general limit of 54.0
dBuV/m
