Note: The EUT is a 15" LCD monitor with resolution up to 1024x768 (48 kHz)

The EUT has two model names, which are identical to each other in all aspect except for their bases. The model names are as the following:

- Model : LT530C
- Model : LT530F

From the above models, model: LT530C was selected as the representative during the test and therefore only its data is recorded in this report.

The EUT was tested with the following test modes:

MODEL	LCD PANEL	POWER ADAPTER

1. Emission level (dBuV/m) = Correction Factor (dB/m) + Meter Reading (dBuV).
 2. Correction Factor (dB/m) = Ant. Factor (dB/m) + Cable loss (dB)
 3. The other emission levels were very low against the limit.
 4. Margin value = Emission level - Limit value
