1 Charge it

Assembling the Power Adapter

US, Japan & Taiwan

Europe

Removing Adapter Plug Head

- Supplied interchangeable plugs may vary according to region and country.

Option 1: Power Adapter

3 Hours

Charge the speaker with the supplied power adapter for at least 3 hours before use. Please ensure your speaker is powered off for optimized charging. *Battery performance may degrade over time depending on charge cycles.

Battery status indications

- ● ● ● → Battery full
- ● ○ → Battery at about 70%
- ○ ○ → Battery low

- ○ ○ → Battery extremely low
- ● ● → Battery charging

Running LED

Option 2: USB

The Sound Blaster ROAR can also be charged using a USB cable. It may take longer to charge due to USB power limitation. **Switch off your speaker when charging.**

TIP: Lithium-ion battery life may suffer when it is constantly fully depleted or overexerted at low voltage. It is a good practice to keep the battery well charged.

NOTE: **Power saving mode:** The speaker automatically powers down when there is no *Bluetooth* connection, recording using microSD card, microSD card playback or audio input for more than 15 minutes.

For optimized charging: Creative recommends using the bundled USB cable for optimized charging.

2 Connect it

One-touch NFC pairing

Turn on NFC on your NFC-enabled device and tap your device on the NFC logo to connect. To disconnect, tap your device on the Sound Blaster Roar again.

TIP: With Multipoint, you can connect up to two smart devices with your speaker simultaneously. Simply pause the playback on your current device and tap another device to connect!

NOTE: Be sure that your phone is NFC-enabled and find out where the NFC sensor is located on your phone. For more information, refer to the User Guide of your phone.

Manual *Bluetooth* pairing

1. Press the **Power ON / Standby** button to power ON the speaker.
2. Press and hold the **Multifunction** button until the white LED is blinking rapidly.
3. Select **SB ROAR SR20** from the list of discovered *Bluetooth* devices, and they're paired!

LED Indication	Status
Green LED stays lit	Powered ON but not connected to any <i>Bluetooth</i> devices
White LED blinking rapidly	<i>Bluetooth</i> Pairing Mode, waiting for device to connect
White LED stays lit	Connected to a <i>Bluetooth</i> device

USB connection*

* The speaker automatically goes into MicroSD Card Reader Mode every time it is connected to a computer. To use it for audio playback, see "Playing audio from computer (USB audio)".
