

USER MANUAL

This is a copy of the FCC statement included in the user manual:
(Page 7 of the ES220 / ES220L User Manual)

INFORMATION FOR THE USER

This equipment has been tested and found to comply with the limits for a CLASS B digital device, pursuant to Part 15 of the FCC Rules and with the following European and international Standards for:

Electrical safety:	Electromagnetic Compatibility:
<i>Europe : EN60950, 3rd edition</i> <i>European Directive 73/23/CEE "Low Voltage Directive"</i> <i>International: IEC 60950, 3rd edition</i>	<i>Europe: EN55022:1998 + A1:2000, Class B / EN55024 : 1998 + A1:2001</i> <i>European Directive 89/336/CEE on electromagnetic compatibility</i> <i>International: CISPR22:1997 + A1:2000 CLASS B</i> <i>United states: FCC rules-Part 15 Class B (digital device)</i>

In order to guarantee compliance with the above standards in an installation, the following must be done:

- the provided cables must not be modified.
- additional cables used must have their respective shield connected to each extremity.

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- * reorient or relocate the receiving antenna
- * increase the separation between the equipment and the receiver
- * connect the equipment into an outlet on a circuit different from that of the receiver
- * consult the dealer or an experienced audio television technician.

Note: Connecting this device to peripheral devices that do not comply with CLASS B requirements or using an unshielded peripheral data cable could also result in harmful interference to radio or television reception. The user is cautioned that any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. To ensure that the use of this product does not contribute to interference, it is necessary to use shielded I/O cables.
