Let's get started

Before using your phone, please read the legal, safety, and regulatory information provided with your product.

Note: Your phone is not waterproof. For more about your phone's water-repellent design and care, swipe up and tap **Settings > Help**.

Put in the card(s) & power on

- 1 Insert the SIM tool into the hole next to the SIM & microSD card tray to pop out the tray. Make sure you use the correct size SIM card and don't cut the SIM card.
- 2 Insert the SIM card(s) with the gold contacts down, then gently push the tray into the slot. Add a microSD card  (optional, sold separately) for additional storage.

eSIM option (one physical SIM model only): Your phone may support an eSIM (embedded SIM card) in addition to the physical SIM card. Contact your service provider for details if you want to activate and use it.

Connect with 5G: 5G service plan and 5G network coverage required; available only in select areas; device not compatible with all 5G networks. Contact your service provider for details.

- 3 Press and hold the Power button  to turn on your phone, then follow the prompts to get started.

To turn off your phone, press the Power and Volume Up buttons  +  at the same time.

Help & more

Get answers, updates, and info:

- **Help is here:** From the home screen, swipe up and tap **Settings** > **Help** to learn how to use your phone and get support.
- **Get more:** Get software, user guides, and more at www.motorola.com/mymotog.
- **Get apps:** Tap **Play Store** to browse and download apps.

Legal information. This guide provides important legal, safety, and regulatory information that you should read before using your product. For the complete legal information, from the home screen swipe up and tap **Settings** > , then type **Legal information**, or visit www.motorola.com/device-legal.

Charging and battery safety. To prevent possible burning and injury, the battery in your phone should only be removed by a Motorola-approved service center or similar skilled personnel. If your phone becomes unresponsive, press and hold the Power button until the screen goes dark and your phone restarts.

The phone is PD (Power Delivery) capable. For the fastest charging speeds, use the included Motorola charger and cable. If not included, purchase a Motorola 18W or higher USB-C PD charger and compatible PD cable. Use of other chargers is not recommended and may impair the charging performance. The power delivered by the charger must be between min 5 Watts required by the radio equipment, and max 18 Watts to achieve the fastest charging speed. Chargers that do not comply with applicable national standards may be unsafe, with risk of death or injury, and may cause slow charging or product damage. Don't charge your phone in temperatures below -20°C (-4°F) or above 45°C (113°F). To view applicable standards and to learn more, see the "Legal information" section of this guide, or visit www.motorola.com/device-legal.

Warning about high volume usage. To prevent possible hearing damage, do not listen at high volume levels for long periods. When your headset volume reaches the high volume threshold, a warning shows. Tap **OK** to dismiss it, or wait one to five seconds, then press the Volume Up button to dismiss the alert and enable the volume to continue to be adjusted.

Disposal & recycling. For help recycling products and packaging responsibly, visit www.motorola.com/recycling.

Extreme heat or cold. Don't use your phone in temperatures below -20°C (-4°F) or above 45°C (113°F). Don't store/transport your phone in temperatures below -20°C (-4°F) or above 60°C (140°F).

Legal disclaimers. Features, services and applications are network dependent and may not be available in all areas; additional terms/charges may apply. Product specifications and other information contained in this guide are believed to be accurate at the time of printing or release. Motorola reserves the right to correct or change any information without notice.

Arbitration. Your purchase is governed by a binding arbitration

clause. For more information and how to opt-out, see the legal guide that came with your phone.

SAR information (on e-label). To view specific absorption rate (SAR) values for this phone, from the home screen swipe up and tap **Settings** > **Q**, then type **Regulatory labels**, from your phone's dialpad, type ***#07#**, or visit www.motorola.com/sar.

Supported frequencies and power (Model XT2433-4, XT2433-5).
