

MOTOROLA

Date: April 11, 2006

To: Gregory Czumak / PC Test TCB

From: Mr. Andrew Bachler / Motorola Inc.

Subject: Request for additional information regarding FCC ID: IHDT56FB1 (Portable GSM transceiver)

Reference:

Application Received: 12/05/2005
Correspondence Reference Number: 151205.IHD
Confirmation Number: 1512050573 / 0574
Date of Original Email: 04/07/2006

Questions and responses follow:

1. Page 4 of the BT test report states that the phone has a GSM 850 MHz transmitter. Please clarify.

Response:

The EUT does not contain an 850 MHz transmitter. Reference to 850MHz on page 4 of the BT test report is an error.

2. Page 45-50 of the BT test report seems to have positive margins listed. This is due to incorrect limits listed for the restricted band. Please clarify.

Response:

The plots on pages 45-50 indicate the correct values, however, the tabulated data for the results you specified above were not entered correctly. The results were corrected and are shown below.

3. FYI: There is a typo on page 7 of exhibit #6 in the GSM EMC test report. The high channel power is indicated at 30.37 dBmi.

Response:

Agreed, the "i" should be removed from "dBmi".
