

10 October 2014

Subject: Declaration of Product Equivalence.

To Whom It May Concern:

Motorola Mobility LLC hereby declares the mobile device carrying FCC ID IHDT56QD2 is electrically equivalent to the certified device carrying FCC ID IHDT56QD1 in the following areas:

- Wi-Fi transceiver.
- Bluetooth/Bluetooth LE transceiver.
- Near Field Communications (NFC) transceiver.

This equivalence declaration asserts that the portions of this device identified above are identical to those of the referenced device, in that they share:

- Identical circuit design and topology.
- Identical electrical components (including the antenna).
- Identical physical layout.
- Identical factory tuning and configuration.
- Identical physical characteristics of the PC Board and Housing.

Therefore, the test data already collected for the referenced device can be re-used for this device's certification.

Sincerely,

John Lewczak
Engineering Manager
