Photograph 9-6: Rear Housing

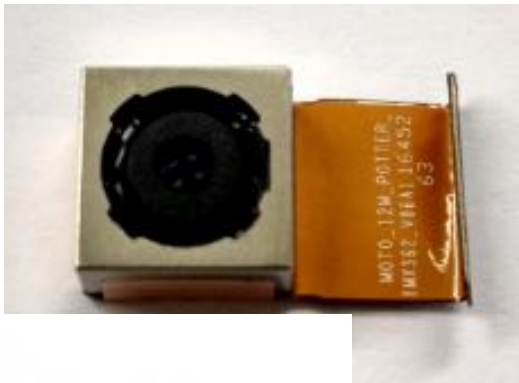

A detailed view of the internal components of a gold-colored smartphone. The large, light-colored battery is the central feature, with a circular cutout in the center containing the text "33014031002" and "12/18/16/F2". To the right of the battery is the green logic board, which is populated with various electronic components, including a large black rectangular component, several capacitors, and integrated circuits. A yellow component, likely a camera or sensor, is visible near the top. The bottom of the device shows a charging port and other connectors. The entire assembly is housed within a gold-colored metal frame.
