**Photograph 9-6: Rear Housing**

## This image shows the internal components of a smartphone chassis. The large, light-colored rectangular area in the center is the battery. Above it, on the left, is the SIM card slot. To the right of the battery is a green printed circuit board (PCB) populated with various electronic components, including a yellow component, capacitors, and integrated circuits. At the bottom, there is a charging port and other connectors. A circular label on the battery reads "33014031002 12/18/16/F2". The entire assembly is housed within a gold-colored metal frame.
