Photograph 9-6: Rear Housing

A photograph showing the internal components of a smartphone chassis. The main battery compartment is a large, light-colored rectangular area in the center. To the right of the battery is a green printed circuit board (PCB) populated with various electronic components, including a large black rectangular component, several capacitors, and integrated circuits. At the top of the chassis, there is a silver metal shield with a yellow component attached to it. Below the battery, there is a circular cutout with the text "33014031002" and "12/18/16/F2" printed on it. The bottom of the chassis features a black plastic housing with a gold-colored connector and the text "04CM12B" printed on it. The entire assembly is housed within a gold-colored metal frame.
