RE: EA95137
Correspondence #: 9807

Dear Mr. Chang:

This letter is in response to your request for information contained in correspondence number 9807 regarding the form 731 confirmation number EA95137.

The purpose of the filing is to add alternate antennas to the Proxim Model 7521. The antennas are fully described in the test report. The Proxim Model 7521 circuitry was not modified in any way from its original approved state to accommodate these antennas.

I trust that satisfies your request, however please contact me if you require any additional information.

Sincerely,

A handwritten signature in black ink, appearing to read 'R. Sam Wismer'. The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

R. Sam Wismer
RF Approvals Engineer
LXE, Inc.
