CANADA

Polar Electro Oy has not approved any changes or modifications to this device by the user. Any changes or modifications could void the user's authority to operate the equipment. Polar Electro Oy n'a approuvé aucune modification apportée à l'appareil par l'utilisateur, quelle qu'en soit la nature. Tout changement ou toute modification peuvent annuler le droit d'utilisation de l'appareil par l'utilisateur.

Industry Canada (IC) regulatory information

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Avis de conformité à la réglementation d'Industrie Canada

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

USA

Polar Electro Oy has not approved any changes or modifications to this device by the user. Any changes or modifications could void the user's authority to operate the equipment.

FCC regulatory information

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

This product emits radio frequency energy, but the radiated output power of this device is far below the FCC radio frequency exposure limits. This equipment complies with FCC RF radiation exposure limits for an uncontrolled environment. Nevertheless, the device should be used in such a manner that the potential for human contact with the antenna during normal operation is minimized.

RF Exposure Information:

Polar M450 device was evaluated for body-worn operations with the separation distance of 1 cm (0.39 inches) between the user's body and the device. To comply with FCC and Industry Canada RF exposure requirements, a minimum separation distance of 1 cm (0.39 inches) must be maintained between the user's body and the device.

If positioned less than 10 mm from the body the SAR measurement of the device may exceed the FCC and Industry Canada exposure guidelines for body-worn operations.

Informations sur l'exposition aux radiofréquences :

Le dispositif Polar M450 été évalué en vue d'une utilisation comme appareil portatif avec la distance de séparation de 1 cm entre le corps de l'utilisateur et le dispositif. Pour satisfaire aux exigences de la FCC et d'Industrie Canada en matière d'exposition aux radiofréquences, une distance d'au moins 1 cm doit être maintenue entre le corps de l'utilisateur et le dispositif.

S'il est placé à moins de 10 mm du corps, la mesure du DAS du dispositif peut dépasser les directives de la FCC et d'Industrie Canada concernant l'exposition aux radiofréquences pour les appareils portatifs.
