

September 28, 2000

The audio frequency response, low pass filter test, occupied bandwidth, and frequency stability in this application for Type Certification for the CST-703 (FCC ID: IP9CST703) have been performed under my direct supervision.

To the best of my knowledge these tests were conducted in accordance with the procedures outlined in Part 2 and Part 90 of the Commissions Rules and Regulations.

I am presently employed by Tactical Technologies Inc. in Folsom, Pennsylvania as a Design Engineer. My prior experience consists of 10 years of designing and testing communication products in the VHF portions of the spectrum.
