Mr. Lyles:

Please find the correspondence I have had with Van Ruggles, of Garmin, about the issues remaining on the GNS430A submittal. It is our understanding that the FAA has no problem with the submittal and if they did, they would have stopped the grant process long ago. I uploaded a PDF file of the rule waiver to the web site, and left it under the cover letters section. Please let me know if you still require information from us. Garmin would very much appreciate getting the grant of certification out of everyone way. Thank you for your help and consideration in resolving this matter.

Sincerely,

No letter back. In the past, the FAA Spectrum folks have 30 days to respond with questions or to stop it at the FCC. To my knowledge, no response is taken as "A-OK" from the Spectrum folks.

Hello Van, I took the liberty to send a copy of the waiver to Stan Lyles at the FCC and received this word back from him this morning. Did you ever get a letter from the FAA? I thought they did NOT send a letter unless they thought there was a problem. Anyway, think about this and get back with me.

Thanks

Scot

Hello Scot,

I haven't received the Waiver for Garmin. Could you re-send the Waiver for Garmin in EAS.

Also, as a reminder we still need a reply letter copy from FAA uploaded in EAS.
