APR - 9 2018

Mr. Andy Leimer
Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

Dear Mr. Leimer:

The Federal Aviation Administration, Spectrum Engineering Services Group received the Garmin GMN-0216 (market label GTX 345, GTX 345R, and GTX 45R) notification letter of its filing with the Federal Communications Commission (FCC). The application is for certification of the Garmin GMN-0216 (market label GTX 345, GTX 345R, and GTX 45R) with FCC ID: IPH-0225611.

We have completed the review process of the information submitted by Garmin. We have concluded that we have no objection to the FCC granting certification for this equipment.

Garmin should be aware that the 2.4 GHz wireless connection cannot be used for any critical aircraft function, such as control, nor should it cause harmful interference to critical aircraft functions. Also, the user must accept any harmful interference that it caused to the 2.4 MHz connection.

If you require any additional information, please contact Mr. Ian Atkins, Group Manager, Spectrum Engineering Services Group, at (202) 267-9710 or Mr. Jae Shin, Electronics Engineer, Spectrum Planning and International Team, at (202) 267-7365 or via e-mail jae.w.shin@faa.gov.

Sincerely,

David E. Spencer
Director, Operations Support
