To whom it may concern,

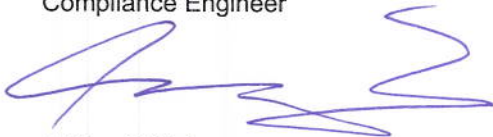

This letter is provided to attest that the devices approved under FCC ID: IPH-03294 are applicable under a single certification number, and that testing performed on a single market label can apply the results to all similar market labels. Additionally, all model numbers are applicable to the single certification number due to electrical similarities as the intentional transmitter circuitry and antenna are identical.

The only electrical differences between the different model numbers are the display size, sonar functionality, keypad, and configuration jumpers.
