Dear Mr. Corey Cahill:

The Federal Aviation Administration, Spectrum Engineering Services Group received the Garmin notification letter of its filing with the Federal Communications Commission (FCC). The application is for certification of the Garmin GMN-03000 with FCC ID: IPH-04292.

We have completed the review process of the information submitted by Garmin and concluded that we have no objection to the FCC granting certification for this equipment with the understanding that this radio will meet the TSO-C169a requirement.

If you require any additional information, please contact Mr. Jae Shin, Electronics Engineer, Spectrum Planning and International Group, at (202) 267-7365 or via e-mail jae.w.shin@faa.gov.

Sincerely,

**MARK D
CARMOUCHE**
