

# Antenna Data Sheet

## Antenna Manufacturer Information:

Antenna(s) are manufactured and designed at Garmin headquarters located at 1200 E. 151<sup>st</sup> Street, Olathe, KS, 66062, USA. Garmin is an antenna manufacturer that specializes in antenna construction and has been a technology leader in high performance antenna design for over thirty years. State-of-the art equipment is used to design, measure, and analyze new designs that are superior to competitor designs and highly proprietary in nature.

## Antenna Description:

This data sheet contains the antenna gain information for the A04666-A1 for Garmin Model A04666. The approximate operational frequency band of these technologies is given, and the maximum gain within the frequency band is shown in table 1.

**Table 1 Antenna Gain:**

| Antenna Model Number | Antenna Type                              | Antenna Maximum Gain @ Frequency | Antenna Approximate Frequency Band |
|----------------------|-------------------------------------------|----------------------------------|------------------------------------|
| A04666-A1            | Inverted F (Same antenna for Wifi/BLE/ANT | 0.203 dBi @ 2360 MHz             | 2350 to 2530 MHz                   |
|                      |                                           |                                  |                                    |

## Additional Information:

Contact Garmin for other information regarding antenna design, dimensions, cable length, etc.
