Cover Letter for Module Integration

July 11, 2026

Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046
USA

Application for:

FCC ID: IPH-05171

Product Description: Portable Digital Transceiver

The above product integrates the nRF9151 module from Nordic Semiconductor (manufacturer) with FCC ID: 2ANPO00NRF9151. This module was integrated in accordance with the Hardware Design Guidelines provided by the manufacturer. The module is used as provided by the manufacturer, and no hardware or software changes are made to the module.

Additional notes on implementation:

LTE CAT M1 – Bands 2/4/12 used in North America. All other LTE bands are locked out.

NTN Band n256 will not be utilized in the subject region. The UE will remain in receive-only mode while scanning for System Information Blocks (SIB), after which it will attach and transmit to satellites only on bands n23 and n255 within North America.

Sincerely,

A handwritten signature in blue ink that reads "Michael Moranha".
