Hello Lourdes

We have now uploaded all requested documents.  
Please have a look if something is missing,

For the next step "equivalence letter" please  
Make a pragmatic proposal.  
We will review and come back to you.

Thanks and have a nice weekend.

Mit freundlichen Grüßen / Best regards

**Lars Tegge**

**Subject:** RE: Documentation for RTA of Garmin devices

Hi Lars,

Nice to e-meet you.

Please let me list below the technical documentation that would be required for the certification:

- Operational description
- Block diagrams
- Schematics
- PCB layout
- PCB component placement
- Mechanical drawing
- BOM
- Antenna datasheet
- RF module datasheet
- User manual (User manual of the vehicle in English, Spanish and French, Garmin will provide the annex covering the regulatory notices since this is part of their homologation)
- Technical specifications/Datasheet in Spanish

In addition to these documents, we would appreciate your assistance in identifying and linking the identification of your device (FCC ID, IC ID, HVIN, HW, and SW version) with Garmin's. With that, we will draft a letter that establishes the equivalence between both sets of identifiers. This way, when the RCB encounters Bosch's device reference within the documentation, they will be able to accurately link it to Garmin's.

Thanks in advance for your collaboration.  
Best regards

Lourdes Valverde
