Radar Sensor External Pictures

1 Scope

This document contains external pictures of the 1D-Radar Sensor MWC25M-L2*.

2 External Pictures

The pictures taken / the renderings are detailing the sensor outside appearance, most importing view angle.

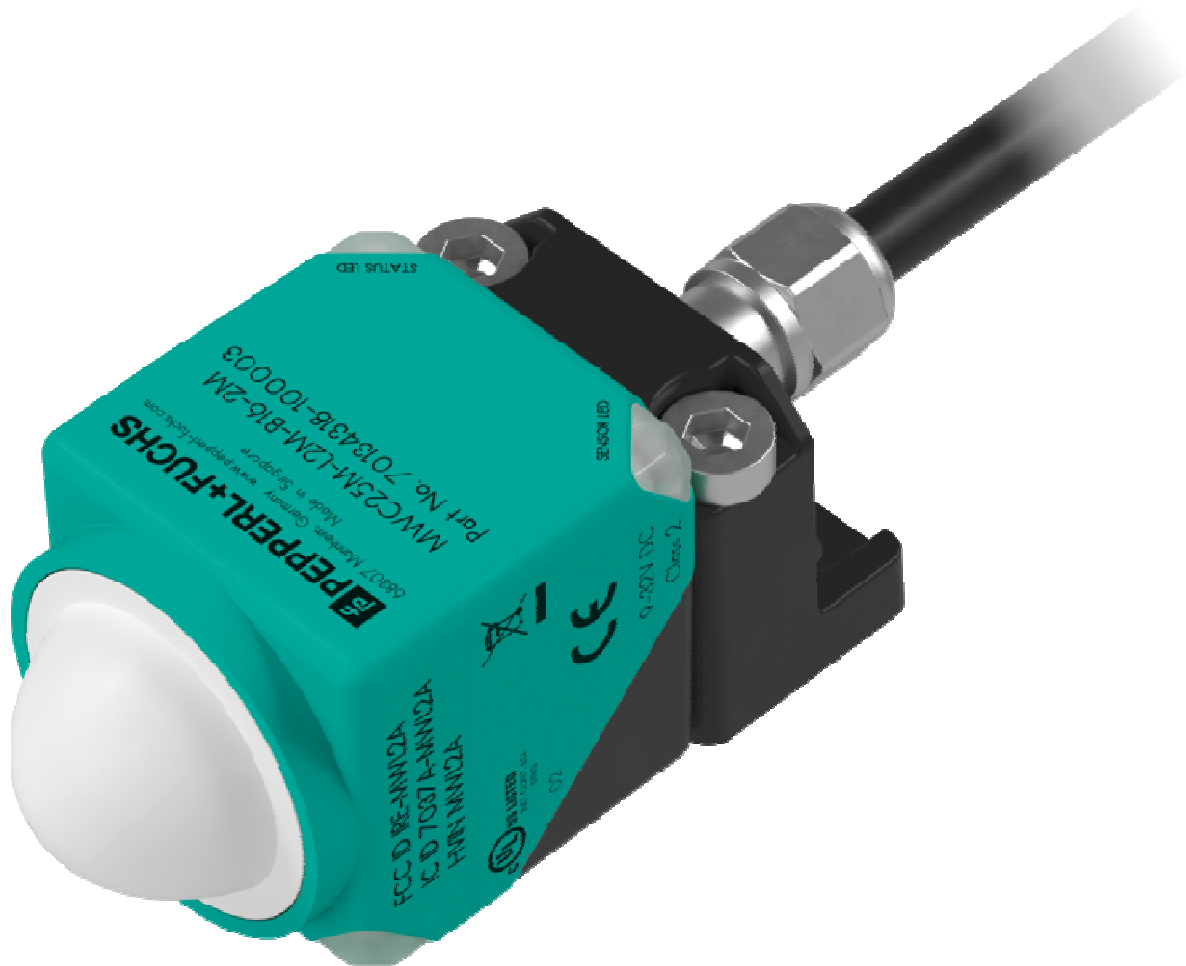

The L2 housing is mounted for straight connector / cable configuration. The right angle configuration is not detailed here.

Note: The part marking shows already FCC ID and IC ID. This part marking variant will be used as soon as the respective approvals are available. First sensor units manufactured before will not show this detail and will be used in Europe only!

2.1 Sensor, V15 connector version, including mounting bracket.

2.2 Sensor, cable version, including mounting bracket.

2.3 Sensor, cable pigtail / Deutsch connector version, including mounting bracket.

2.4 Sensor, cable pigtail / AMP connector version, including mounting bracket.
