**RE: Request for Modular Approval OMNI/800 FCC ID# IWC-800**

To Whom It May Concern:

We are requesting **Single Modular** Approval. In accordance with 47CFR 15.212 Modular Transmitters and KDB 996369 D01 'Module Certification Guide v01r04', **Noraxon USA** has been examined against the following requirements:

*(If any are checked "no" please provide an explanation why.)*

| Essential Elements of 15.212(a)(1)                                                                                                                                                                                        | Yes | No |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|----|
| The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly                                | X   |    |
| The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal                                                                        | X   |    |
| The module must contain power supply regulation on the module                                                                                                                                                             | X   |    |
| The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b) | X   |    |
| The module must demonstrate compliance in a stand-alone configuration                                                                                                                                                     | X   |    |
| The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)                                                             | X   |    |
| The module must comply with all specific rules applicable to the transmitter including all the conditions provided in the integration instructions by the grantee                                                         | X   |    |
| The module must comply with RF exposure requirements                                                                                                                                                                      | X   |    |

Please contact me if there is any information you may need.

Sincerely,

Ramon Beltran
