

Antenna description:

The NFC antenna of the NH3 is an integrated PCB trace antenna designed & matched at Marquardt specifically for the NH3. The antenna cannot be modified or disconnected from the end product without significant damage to the Door Handle

Technical description:

Antenna type:	Integrated PCB loop antenna, approx.. 70 x 16 mm
Frequency range:	13.56MHz
Frequency of operation (center):	13.56 MHz
Antenna gain:	Max. Antenna gain -4dBm
