Functional description for RF unit of HIFX

HIFX is the wireless parts identification device for an Inductive loop coupling. This system (HIFX) has three modules of the controller (HIFX-C), the antenna (HIFX-A) and TAG (HIFX-T). (See Fig.1)

HIFX-C : RF Control PWB Assy.

HIFX-A : Inductive loop Antenna

HIFX-T : Tag (Receiving Antenna)
