RE: S.A.E. Afikim Ltd.

FCC ID: JERAFIID

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Please confirm the placement of the label. This device appears to have various components such as Ideal Identification Controllers and Switch Boxes. It is uncertain which box the label is being placed upon. Please clarify and also justify this placement under the requirements of 15.19(a)(4):

15.19.(a)(4) Where a device is constructed in two or more sections connected by wires and marketed together, the statement specified under paragraph (a) of this section is required to be affixed only to the main control unit.

- 2) If possible, please provide internal photographs of the antennas.
- 3) It appears that the digital device portion of this product is being approved under a DoC. Therefore we are not reviewing the Part 15B report provided unless you desire to have this certified as a PC peripheral as well. Please let us know how you wish to handle this.

Timothy R. Johnson  
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
