1.) Please open the Parts List supplied for this device and refer to the last page. It appears that this device is planned to operate on several different frequencies within the 27MHz band. Please confirm which frequencies will be offered in North America. If more than just 27.145 MHz then additional data shall be necessary, specifically band edge data at the lowest and highest operating channels.

Yes , there are more than just 27.145MHz, and the amendment report (with additional data)is uploaded to the web site .

2.) Please note that if more that one channel shall be utilized, then an updated Form 731 shall be submitted.

The revised Form 731 is uploaded to the web site

3.) FYI: The font used in the Parts List and also the Test Report [page 7 of 8] is very difficult to read. Please be careful and take pity on my eyes.

The clearer one is uploaded to web site . We will pay attention to it from now on .

4.) The Schematic, Operational Description and Block Diagram are covered under the Confidentiality letter, but not the Parts List. Please confirm if this is acceptable to the Applicant.

The client confirmed with us again : the parts list no need be confidentiality .

5.) The FCC's contact of record for Perfect Toys International is Mr. Lo Ting Ching. This is not individual who has signed the 731 form, nor is it the individual who has signed the Agent Authorization form. In addition, we have no understanding of who is "Xian Hao Electric Appliances and Toys, Dong Guan City, Guang Dong, China" and there relationship to "Perfect Toys International". The FCC database must be accurate and contain all revised contact information relevant to any radio product Certification. Please update the contact information associated with Grantee code "JHP".

In fact the two companies is the same one ,just different in their name, the revised Confidentiality Letter and Authorization Letter with applicant's chop are uploaded to the web site .
