

SPURS Radiated - HARIS – WinRoll –800

**FCC id: JJAGLOBALCELL-IID
731 Confirmation #EA96557**

The Com-Dev Cellular Base station was set-up with standard test conditions On the REC 3 meter Test Range. Using a Tek 492 spectrum Analyzer with calibrated and properly adjusted dipole antennas, no signal was identified within the FCC report limit of -74 dBc.

Norwood J. Patterson made these measurements on November 22, 1999.
