TIRED OF YOUR EARPHONES FALLING OUT?

These are the last earphones you'll ever need! Our ears are as unique as our fingerprints and require a customized solution. Get the ultimate fit, comfort and sound with Revols: the world's first custom-fit earphones that take the unique shape of your ears in 60 seconds.

Insert the earbuds and tap the start button on the mobile app to trigger the molding magic. In 60 seconds the tips will transform from their initial gel-like state to their permanently hardened, customized shape!

Enjoy world-class audio with Revols. The signature sound is full, warm and detailed while delivering a deep, tight and punchy bass.
